

## **FAQs:**

### ***What about the Read Now button?***

You can access most OverDrive books without downloading! Click *Read Now* and you can read in your internet browser.

### ***Why do I need an Adobe ID?***

The Adobe ID registers the loan to you and is what allows you to transfer eBooks to your e-reader. You can authorize up to six computers and six devices with the same ID.

### ***What do I do when the eBook expires?***

Nothing needs to be done, the book is automatically returned for circulation.

If you would like to delete remnant files from your e-reader, connect it to your computer and use Adobe Digital Editions to view the reader's contents and delete the book.

### ***Can I return an eBook early?***

Yes! You can return through Adobe Digital Editions by right-clicking the book and selecting *Return Borrowed Item* from menu.

### ***Can I renew my eBook?***

Yes! If there are no holds you may renew the book two days before it expires. OverDrive will treat this like a new checkout and you will need to download and transfer the book again after the current check-out expires.

### ***Which way should I sign-in?***

The simplest method is to use your library card—every method requires it! But you can use any method you feel more comfortable with.

Use these instructions for most traditional e-readers and for color e-readers that do not have access to an appropriate application store.

These instructions are not applicable for any *Kindle*, nor are they necessary for the *NOOK Color* or any *NOOK Tablet*. *Sony Readers* may require their own additional Reader Library software.

For *NOOK GlowLight Plus*, enter your Adobe ID directly to the device, and copy the .epub file from your computer to My Files on the *NOOK*.
