

Potential Hazards and Critical Facilities: Belmont, NH

Draft

Draft

Legend, continued

- ★ Public water supply
- Natural gas pipeline
- ◇ Potential Contaminant (NH DES)
- ◇ Potential contaminant (local)
- Junkyard
- Poorly drained soils
- Very poorly drained soils
- Aquifer boundaries

Critical Features	Critical Facilities	Critical Areas	Roads	Water	Boundaries
Bridges of Concern	Communications Center	Elderly Housing	Interstate	Streams	Parcels
Dam	Emergency Fuel	Elderly/Mobile Homes	State Roads	Lakes and ponds	Town boundaries
Fuel Depot	Emergency Power	High Density Housing	Local Roads	Community Water Supply	1-mile buffer
Dangerous Intersection	Emergency Shelter	Historic Area	Not Maintained	Operational Dry Hydrant	Surrounding communities
Group Home	Evacuation Site	Limited Fire Access	Private Roads	Potential Dry Hydrant	
Removed Dam	Fire			Potential Hydrant Site	

Digital data in NH GRANIT represent the efforts of the contributing agencies to record information from the cited source materials. Complex Systems Research Center (CSRC), under contract to the Office of Energy and Planning (OEP), and in consultation with cooperating agencies, maintains a continuing program to identify and correct errors in these data. Neither OEP nor CSRC make any claim to the validity or reliability or to any implied uses of these data.

Roads data comes from SmartMap 2004 - NHDOT.

Soils drainage data from NRCS preliminary data for Belknap County, 2005. The identification of hazards and facilities were done in conjunction with officials from the town of Belmont, 2005.

This map is for planning purposes only.
