NEWFOUND RIVER WATERSHED Development Potential

THIS MAP WAS CREATED BY THE LAKES REGION PLANNING COMMISSION, 103 MAIN STREET, SUITE 31, MERIDEN, NH 03253.

THE SOILS DATA WAS DERIVED FROM THE NATIONAL SOIL SURVEY DIGITIZED AT NH GRANT, COMPLEX SYSTEMS RESEARCH CENTER, UNH, DURHAM, NH. THE DATA IS PROVIDED BY AND MAINTAINED BY GRANT.

DISCLAIMER: The soils data is a pre-certified SOIL GEOGRAPHIC DATABASE (SGDB), mapped by the USDA, Soil Conservation Service, Durham, NH. Delineations depict the dominant soil(s) making up the landscape. Inclusions of other soils, too small to be delineated, are present within a delineation. Enlargements of these data to scales greater than that of which they were originally mapped can cause misunderstanding of the detail of the data. The depicted soil boundaries and interpretations derived from them do not eliminate the need for on-site sampling, testing, and detailed study of specific sites for intensive uses. Thus, this map and its interpretations are intended for planning purposes only. Digital data files are periodically updated. Files are dated and users are responsible for obtaining the latest version of the data. For technical information contact either the Lakes Region Planning Commission, Meriden, NH, or the State Soil Scientist, SCS, Durham, NH.

This map and its interpretations are intended for planning purposes only.

Rating	Acreage	% Total
High	2,722	4.7%
Moderate	18,030	31.2%
Low	4,941	8.6%
Very Low	32,036	55.5%
