Nonfiction Book Group - February 10

Join us on Monday, February 10 at 6:30 p.m. to discuss *The Feather Thief* by Kirk Wallace Johnson.

"Johnson (*To Be a Friend Is Fatal*) makes his true-crime debut with this enthralling account of a truly bizarre crime. In 2009, Edwin Rist, an American student at London's Royal Academy of Music, stole 299 rare and scientifically significant bird skins from the Natural History Museum at Tring, in Hertfordshire, England, plucked their feathers, and sold them for top dollar to men who shared his obsession with the

Victorian art of salmon-fly tying. Johnson explores the expensive and exotic hobby of salmon-fly tying that emerged in the 19th century and uses that context to frame Rist's story, including his trial. Rist did not serve jail time after his lawyers successfully argued that Asperger's syndrome was to blame for his crime. In the book's final section, Johnson goes deep into the exotic bird and feather trade and concludes that though obsession and greed know no bounds, they certainly make for a fascinating tale. The result is a page-turner that will likely appeal to science, history, and true crime readers." (Publishers Weekly, vol 264, issue 46)

Author Jack Flowers - February 12

Jack Flowers was drafted in 1967 and sent to Vietnam as a 2nd Lieutenant in the Army Corps of Engineers, stationed near Saigon. He volunteered for one of the most hazardous duties - leader of the 1st Infantry Division Tunnel Rats. According to Flowers, this was a life changing event from which he has never quite recovered but always remembered. Flowers says, "the Tunnel Rats were some of the most courageous soldiers to fight in Vietnam. All were volunteers, slightly built, cunning, rebellious, trained in demolitions and dedicated to ferreting out the enemy below. In the beginning of the war, entering a tunnel with only a flashlight and a pistol was almost suicidal. But over time the Army learned to successfully navigate the underground labyrinths, retrieve vital intelligence and destroy the tunnels."

On Wednesday, February 12 at 6:00 p.m., Flowers will be here to discuss his novel *Rat Six*, based on his own experience as a Tunnel Rat. Flowers describes writing the novel as "a catharsis cleansing his soul and putting into words the horrors of a war he had opposed."

Meditation Class - February 24

Meditation: Are you a beginner? Looking to deepen your practice? Join us at the Kennebunk Free Library on Monday, February 24 at 6:00 p.m. for the first in a series of meditation classes with presenter Cindy Simon. All are welcome!

Where does most of your awareness and attention go? Do you live in the moment? Are you aware of your breath? Relax and imagine peaceful scenery, learn deep stillness and quiet, utilize positive affirmations, and rid your mind of negative chatter. Learn to bring meditation into your everyday life and discover deeper relaxation, sleep, patience, and calm.

Adult Book Discussion - February 25

Join us on Tuesday, February 25 at 1:00 p.m. to discuss *Beloved* by Toni Morrison.

Morrison encapsulates the horror of slavery and the consuming passion of motherhood in a single act of defiance by a runaway slave. The pivotal event occurs when Sethe, the slave, murders her infant daughter rather than permit her recapture. The story of Sethe's violation, her determined escape, and its horrific consequences is slowly played out in memory and gossip, as Morrison hints at the terrible secret in the woman's past--a legacy so dreadful that she has

alienated the black community, driven off her two sons, and sent her remaining daughter into her own form of exile. Sethe is haunted not only by her own memories and her neighbors' reactions, but also by the ghostly presence of the murdered girl, who is called simply Beloved and who appears just as her mother, released from prison, seems ready to embark on a normal, loving relationship with a man. Sethe's history, too awful to be narrated in a straightforward, chronological manner, is related in kaleidoscopic fashion, complete with the shatteringly eloquent and accurate dialogue that Morrison has displayed in her earlier fiction, such as Song of Solomon (Booklist 73:1704 J1 15 74).

Ukulele Group - February 26

On Wednesday, February 26 at 5:30 p.m., come to KFL for the fun of making music in the library. People of all skill levels are invited to stop by to play along. Instructor Dan Riggall combines basic instruction with the opportunity to play some songs.

The library has a limited number of ukuleles available. Please let us know if you will need to borrow one. We will do our best to accommodate you.

Trivia Night - February 26

Wednesday, February 26 is Trivia Night at KFL. Play alone or bring a team (or join one of our friendly groups of regulars). Admission is free, but players who choose to pay a \$2 entry fee are eligible to collect a share of half of that night's pot if their team wins. (Of course, if you're playing alone, you keep the whole half.) The other half goes to purchasing items for the library's collection. Join us at 6:30 p.m.

In Stitches - February 4, 11, 18, 25

Do you love to knit? Crochet? Sew? Have you always wanted to learn? Do you have an unfinished project hidden on the closet shelf? Then join us for "In Stitches", our handicrafts group! This is a great opportunity to expand your skills and learn from others, about knitting, crocheting, sewing, embroidering, or other handicrafts while enjoying the company of others. Bring a project you are working on, or come learn from the very beginning (please bring your own supplies). Knitting help will be available.

In Stitches meets every Tuesday morning at 11:00 a.m. in the Walker Room. No registration is needed, just drop by for as long as you like.

AARP Tax Help - February 6, 13, 20, 27

It's tax season again at KFL! This year, like last year, the federal 1040A and 1040 EZ forms have all been combined into one 1040 form. The 1040 forms and booklets have arrived at the library and will be available at the adult circulation desk. As in recent years, we will not be receiving any state forms. Library staff will be more than welcome to help you print any forms from the IRS or state website for just \$.10 per page. We can also provide you with instructions for ordering forms to be mailed to you directly.

If you need some help preparing your taxes, we will once again be hosting AARP Tax Aides every Thursday from 9:30 a.m. to 12:00 p.m. The first session this year will be held on February 6, with the program running through April 9. People will be seen on a first-come, first-served basis only. We will have a sign-up sheet available in the lobby when the library doors open at 9:30.

So let's talk about the wait.... Unfortunately, because of insurance regulations, we are unable to allow anyone into the library before we open, regardless of how cold, snowy, or miserable it is outside. We would encourage you to come close to opening time and wait for your appointment inside the library. The heroic AARP volunteers have been great about staying until everyone has been seen. We will have hot chocolate, marshmallows, and snacks available, a fire blazing in the fireplace, and plenty of reading material. All-in-all it will be a far more pleasant wait than standing outside in the snow before we open.

If you have any questions, please give us a call at the adult circulation desk: (207) 985-2173 x4. We look forward to facing the inevitable frustrations of the 2020 tax season together!

Tech Time - February 7, 14, 21, 28

Join us on **Fridays from 10:00 a.m. to 12:00 p.m.** for our ongoing service, Tech Time. Attendees will work one-on-one with a librarian to answer your technology questions. Registration required.

Technology is becoming more complicated so we're here to help. Having difficulty downloading the cloudLibrary app? Got a tablet for your birthday and need help setting it up? Please make an appointment by contacting the library at 207-985-2173. This service has quickly become very popular so your patience in waiting for an accommodation is greatly appreciated.

This service is intended to help educate you about your device or to troubleshoot minor technology issues. Our goal is that you'll leave our session with the confidence and knowledge to troubleshoot your own future technology hurdles.

Junior Science: Rubber Band Helicopters! - February 3

Science can be wacky, wild, or funny, but it's always an adventure! We will be holding a Junior Science series of programming for young scientists to experiment and observe the surprising results. Come join us on Monday, February 3 at 4:00 p.m. as we make Rubber Band Helicopters! We will create our own helicopters and discuss how they fly.

January's Junior Science was a blast as we completed a series of Yeast Experiments! We discussed how yeast survives and the effect it has on our food. Then we attempted to inflate a balloon by filling a bottle with yeast and warm water, feeding it sugar to make it bloom, then capping the bottle with the balloon. We were met with limited success but the kids enjoyed discussing what might have gone wrong with the experiment.

Perler Beads - tiny plastic beads that can melt - were first introduced as a craft in Sweden in the 1950's and we still love them! February Artist: The Center Artists

The Kennebunk Free Library announces its February 2020 exhibition, "**The Center Artists**", the works of George Acker, Florence Damon, Marlene Engdahl, Alan Platt, and Kay Simmons.

These artists represent a portion of a larger group that meets every Friday at **The Center**, 175 Port Road, Kennebunk. The

class is led by teacher and painter Liz Armstrong. It is a diverse group in terms of prior painting experience and years of practice. The group's commonality is their medium, which is acrylics, and their love of painting. Each artist has developed their own style. Local landscape, seascape and floral subjects are frequently the inspiration for their paintings. Several of the represented artists in the group have been invited to show their work in the Kennebunk River Club show and some group members have also been successful in selling their work.

All members paint for their personal enjoyment and individual painting goals and support each other in class. Often in class, one student's work will open a discussion led by their teacher on an aspect of painting such as composition, color or form which is then useful for others. Many of the group members paint outside of class.

The Center Artists group vary in ages between 60s and 90s. They exemplify the very worthwhile practice of lifelong learning and demonstrate that new goals can be reached at any age.
