

## Pemigewasset River Local Advisory Committee

**Date:** January 31, 2012

**Time:** 7:00 PM

**Location:** Pease Public Library

**1 Russell Street (just off Highland Street)**

**Town:** Plymouth, NH

**(Downstairs Meeting Room)**

1/23/12      **AGENDA**

7:00-7:05      Minutes

Review and approve minutes of the November 29, 2011 meeting

7:05-7:20      Northern Pass

PRLAC's proposed public position on Northern Pass as submitted by Barry Draper. (attached to agenda/minutes). Discuss. Approve. Discussion on next steps.

7:20-7:35      Proposed Groton Wind Farm Substation – Permit Application

25 acre site located along NH Route 175, Holderness. (bounded by Trapper Brown Drive on the north, NH Route 175 to the west, wooded south and east). The site is located within surface watershed of the Pemi. The project will result in 3 acres of impervious surface. Maps/drawings will be available at the meeting. The deadline for PRLAC to submit its comments and list issues/concerns is 2/5.

7:35-7:45      Blair Covered Bridge Rehab – Campton – Permit Application

The bridge restoration project is schedule to start this summer. Reinforce pier, replace some structure and sub structure. Repave approaches. Discussion. PRLAC's issues and concerns will be submitted by J. Kellogg and M. Stamp.

7:45-7:50      Legislation Initiatives – Concord

HB 1222-FN proposes to reduce fees for protected shoreland development permits. This loss of revenue would require the layoff of two of the current five staff current managing the shoreland application process, pursuing compliance actions, etc. Does PRLAC wish to weigh in on this?

7:50-9:00      PRLAC Management Plan

D. Jeffers – Plan elements completed to date

Continue developing long term concerns and appropriate responses ie:

- How to compensate for the state's declining ability to protect water quality absent a crisis?

- Other

-
