

# PHOTOGRAPHER JOANNE PEARSON

## From Just a Snapshot to Art - Creating Beautiful Photographs

In this lecture led by professional photographer Joanne Pearson, attendees will learn how to improve their photography skills no matter what kind of camera they are using.

Joanne will lead attendees through the art of seeing as a professional photographer does.

Attendees will learn about framing and how to create dramatic compositions, balance and movement, leading lines and paths, depth of field and the nuances of working with natural light.

This is a lecture that will teach you about what the pros call “getting it right in-camera” and how to shoot with a vision of the story you want each photograph to tell. A Q & A session will follow the presentation.

**Tuesday, July 16**  
**at 7:00 PM**  
**Main Floor Stacks**
