

## CONSERVATION COMMISSION TOWN OF BELMONT, NH

Belmont Conservation Commission  
Minutes Tioga Workday  
July 8, 2023

Present: Members: Pauline Tessier, Ed Stephenson, Jane Jordan, Deb Woodcock, Jeff DeFrancesco, Denise Naiva  
Volunteer: Liz Aunchman  
Staff: Rod Cameron, Land Use Tech

The meeting was called to order at 10am. The Tioga property was reviewed using a map of the property. Assignments for trail and parking lot clearing were determined. Approximately ½ of the trail was cleared. The parking lot brush and saplings were cut and piled to open up the area. Rod Cameron agreed to contact Public Works to determine if they can grade, and open up the parking area up to the existing boulders. And to cut a few birch saplings and move the boulders along the left side of the parking lot to align perpendicular to route 140. This will make the parking lot more of a square shape rather than a circle.

Trash was collected and the gate on the right side was straightened. It was agreed that another work day will be scheduled.

The work day concluded at 12:15pm.

Respectfully Submitted,

Denise Naiva, Chair

A handwritten signature in cursive script that reads "Denise Naiva".
