Public Input
This month’s meeting was attended by David van Houten and Josiah Chamberlain, both representing the town’s energy commission. The goal of
the energy commission is to get all town services buildings converted to solar
energy. The commission has been working hard, and between grants and
community support, they feel that they are financially sound.
They wanted to discuss the possibility of utilizing the library roof and back
wooded lot as options for solar panel and field locations. Other viable
locations include the highway department and fields by the ball field. Using
roofs in town cuts down on the need for land (solar fields), and the life span
of a panel is expected to be around twenty years.
A motion was made by Len to have the energy commission go forward with
their plans, with the library as a tentative location. The motion was seconded
by Sara and passed unanimously.

Librarian’s Report

Elaine submitted a letter of resignation; Laura accepted the resignation.

Lisa Stolte has been hired as the library’s extra clerk; she starts work on
Tuesday, August 10th, 2021.

Laura signed a propane contract, locking in an excellent price of $1.89.

The Children’s House Montessori (closed permanently) emailed Laura with a
donation of $3,496.51. A motion was made by Len to accept the donation;
this was seconded by Barbara and passed unanimously.

Len made a motion to adjourn at 8:10 pm, which was seconded by Sara and
passed unanimously.

Respectfully Submitted
