SENIOR CLASS ADVISORS

MRS. KURTISHI

MRS. THORNTON

Dear Class of 2018,

It is our pleasure to congratulate you on four years of hard work and dedication! We have watched each of you grow as individuals and come together, not only as a class, but as a family. During this time, we have shared memories that will stay with us forever. From selling cookies and Yankee Candles to our Dine and donate fundraisers and numerous car washes, you worked together to make the class a success. We hope you will remember these experiences and the many people with whom you shared your time here at PV. Upon your graduation, hold your memories in one hand, but leave the other open... for your life is just beginning, and the world that awaits you is endless. Wishing you the best of luck in all your future endeavors!

To the class of 2018...

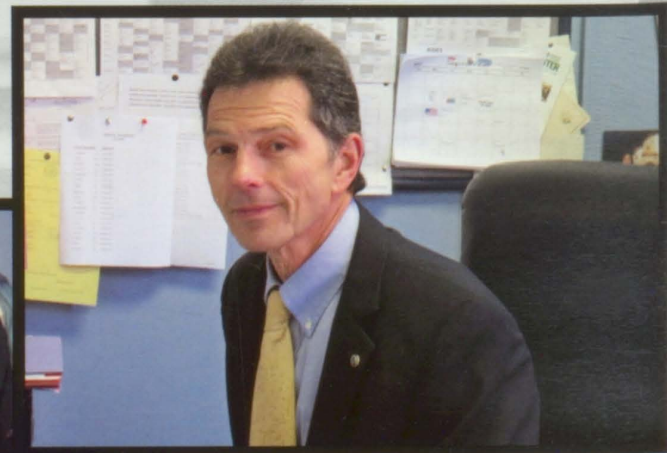

Dear PV Graduates of 2018,

Your final year of high school is a milestone in your life, filled with many emotions: parting with old friends, leaving the security of these three familiar towns, seriously pursuing your education and career goals, and wondering what the future will bring. Graduations provide us with the great opportunity to look back on the past and look forward to the future. Contained within these yearbook pages is a collection of photographs and words, which are an account of your days at Passaic Valley. The age-old traditional spirit of Passaic Valley, which has been cherished and handed down by generations of PV alumni, is now yours to continue.

It was only four years ago that you, as a new group of eager freshmen, made your way through the doors of Passaic Valley High School. There was, however, one distinction that marked you as students; you were the Class of 2018! The influence of the Class of 2018 was soon felt throughout the school academically, athletically, and in extracurricular activities. Your years of hard work and anticipation yielded rewards in the form of academic achievements, athletic accomplishments and service to the community. The past has been glorious; the future is bright with great promise.

Keep in mind as you move ahead that learning is a lifelong task whether you are in the classroom or the workplace. To be successful you must be open-minded and willing to learn and change with the times. Work hard at whatever you choose and success will be yours. Best wishes from all of us at Passaic Valley High School and good luck in all your pursuits!

Sincerely,
Ray Rotella
Principal

Dear Graduates,

Congratulations on your graduation from Passaic Valley Regional High School and good luck as you transition to real world experiences. I am sure that you are eager to celebrate and then get on with your life and future plans. Of course you will receive lots of advice from all of the people who love you and care for you. Enjoy the attention you are receiving as the senior experience; those memories will be with you the rest of your life. Tuck them away in your heart as you confidently go on to great things.

I encourage you to push forward toward making your dreams a reality; you are your own best friend. I also encourage you to be open to opportunities you don't know exist, as surely they will come your way. We live in a complex world of many choices and the actual work you prepare to do will call for you to network in your field. Seek out a mentor you can rely on to guide you in the right direction, but always stay true to yourself. It is the relationships you make in this next phase of your life that will be so important to the success of your future, but they must be healthy relationships that enhance your life and only increase your happiness and well-being.

Sincerely,
Dr. JaAnn Cardillo
Superintendent

The 2018 Valley Green is Dedicated to Mrs. Perosi

"After forty-six years of working in education, Mrs. Mariaelena Perosi, PCV's Director of Student Services, otherwise known as "Head of Guidance," retired on December 22, 2017. She worked in PCV for 17 years and graduated from here in 1967. Perosi's love of Passaic Valley and its community have not changed. "I have been a Hornet since 1963; I will always be a Hornet." Although her time at PCV has come to an end, it is very clear, from the connections she has made in PCV to the work she has done throughout the community, Mrs. Perosi's legacy will not be forgotten."

A SERIOUS AWARD THAT'S ALL FUN AND GAMES

Every year the National Toy Hall of Fame inducts the toys and games that "have inspired creative play and enjoyed popularity over a sustained period." This year, top honors went to the classic board game Clue, the paper airplane and the innovative, window-saving Wiffle Ball.

BIG BEN ENTERS 4-YEAR SILENCE

Big Ben, the Great Bell of London's most famous clock tower, has been ringing on the hour, every hour, for 157 years. No longer. Big Ben went silent for an expected 4 years for much-needed repairs. Workers will replace the roof, give the clock tower a more vibrant color and replace some of the enclosure materials with glass, allowing visitors to easily view the bell.

REMEMBERING THE STARS WE'VE LOST

They bring us hope, inspiration and joy — and sadness when they're gone. In 2017, we lost Bruce McCandless II (age 80), known for the first untethered flight in space, actor David Cassidy (age 67) of Partridge Family Fame, former MLB pitcher Roy Halladay (age 40) from a tragic plane crash and Tom Petty (age 66), one of rock music's greatest legends.

CHANCE THE RAPPER RAISES \$1M FOR CHICAGO SCHOOLS

Chance the Rapper, a native Chicagoan and musician, donated \$1 million to his hometown's public school system for arts and after-school programming. Chance wanted to create a "call to action" and raise awareness for better funding in the city's schools.

REPUBLICAN TAX OVERHAUL BIGGEST IN 30 YEARS

By passing tax reform legislation, Republicans achieved their largest victory since gaining control of Congress and the White House. The \$1.5 trillion bill lowers corporate taxes and provides temporary tax relief for individual taxpayers. On December 22, it was signed into law.

▶▶▶ HURRICANES DEVASTATE TEXAS, FLORIDA, AND PUERTO RICO

Hurricanes Harvey, Irma and Maria battered Texas, Florida and Puerto Rico this year, with September setting a record for most active month. The closely-spaced disasters caused an estimated \$300 billion in damage, prompting the Federal Emergency Management Agency (FEMA) to deploy about 85% of its personnel to affected areas, providing support and funding for rebuilding efforts.

▶▶▶ DEVASTATING CALIFORNIA WILDFIRES

Devastating wildfires raged through California in late 2017, destroying neighborhoods and livelihoods. Damage estimates topped \$10 billion, over 100,000 people were evacuated, and the Thomas Fire in Ventura and Santa Barbara Counties burned an area larger than New York City, Washington D.C. and San Francisco combined.

MOURNS TRAGEDY IN LAS VEGAS

Sadness and shock swept the world as details of the October 1 tragedy at the Route 91 Harvest music festival in Las Vegas were revealed. In the midst of senseless violence that took 58 lives, the grace of everyday heroes shined. Marine veteran Taylor Winston drove dozens of victims to the hospital. Jonathan Smith rushed 30 people to safety. Carly Krygier became a human shield to protect her four-year-old daughter, Blayke, and Lindsay Lee Padgett turned her truck into a makeshift ambulance.

GREAT PYRAMID VOID STUMPS SCIENTISTS

The Great Pyramid of Giza is one of the oldest archaeological wonders, yet it still produces new mysteries. Outfitted with high-tech equipment, researchers uncovered a previously unknown empty 100-foot-long space inside the pyramid. One archaeologist called it "the discovery of the century," though its purpose is unknown. There are no easy answers, either, as protections over the pyramid prevent intrusive excavation.

VOLVO GOING ALL-IN ON ELECTRIC

Swedish automaker Volvo announced that its new car models from 2019 onward will be all-electric or hybrid, making it the first major automaker to move towards completely phasing out the traditional combustion engine.

BIOFORTIFIED BANANAS COULD SAVE LIVES

Australian scientists have developed a banana rich with pro-vitamin A that could save hundreds of thousands of children who die each year from a deficiency of the essential nutrient. Farmers in Uganda, a nation whose population is significantly affected by vitamin A deficiency, plan to begin growing the bananas in 2021.

A ROYAL ENGAGEMENT

Queen Elizabeth II's grandson, Prince Harry, announced his engagement to actress Meghan Markle on November 27. While Markle's American origins make the pair unusual among British royalty, "at the end of the day, it's really simple," she says, "We're two people who are really happy and in love." Their wedding is set for spring 2018.

OPIOID EPIDEMIC ESCALATES

Every day, more than 90 Americans die after overdosing on opioids, a number that has quadrupled since 1999. Over-prescribing, misuse and addiction to opioids affects public health, social and economic welfare. In late October, the Department of Health and Human Services declared it a national public health emergency.

#MeToo survivors' march

BREAKING THE SILENCE

Time magazine's Person of the Year went to the "Silence Breakers," women and men who came forward with stories of sexual harassment and assault. Their voices augmented the #metoo social media movement, as well as the Time's Up initiative, which seeks to raise awareness and money to defend victims of sexual harassment, assault and inequality.

AI SAFETY SPARKS DEBATE

Artificial Intelligence (AI), influences everything from scanning badges, to surfing the internet, using apps and home sensor systems. Companies like Google, Facebook and Amazon use the collected data to get a sense of our behavior, which has technology leaders divided. Others aren't as worried, but caution that it's critical to understand how it influences privacy and personal freedom.

TENSIONS RISE OVER NORTH KOREA

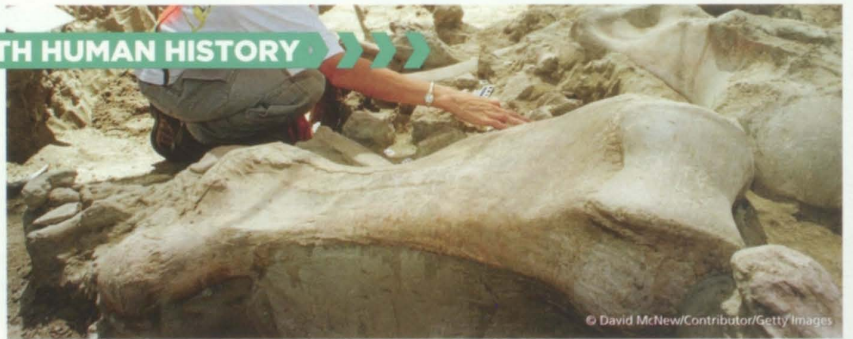

2017 brought an escalation in tensions between North Korea and the United States. Kim Jong Un launched multiple ballistic missile and nuclear tests, while also politicizing the 2018 Winter Olympic Games in neighboring South Korea. President Trump responded with heated speeches and Twitter posts directed at the North Korean leader.

NEW DISCOVERIES

PALEONTOLOGISTS PICK BONE WITH HUMAN HISTORY

Paleontologists now have evidence that humans were in North America earlier than previously thought. Much, much earlier. At a dig site in California, scientists dated the remains of mastodon bones at 130,000 years. Researchers were stunned to discover that the bones had been manipulated using man-made tools, evidence that humans were first in the region around 115,000 years earlier than anyone believed.

MARS OR BUST!

Four male and two female NASA researchers emerged in September after eight months of isolation in a Mars-like environment on a Hawaiian volcano. Crew members wore space suits, ate freeze-dried or canned food and had communications with the outside world delayed by 20-minutes — the time it takes for signals to get from Mars to Earth. The experiment was part of NASA's plans to send humans to Mars by 2033.

YOUR DOG IS TRYING TO TELL YOU SOMETHING

No, your dog isn't looking at you like that just because he wants food. A new study shows that our canine friends produce two times the facial expressions when we look at them, even without food. They specifically raise their eyebrows, making what we call "puppy dog eyes." It's the first evidence of non-primates communicating via facial gestures.

GRIZZLY BEARS' FUTURE GROWS BRIGHTER

In the 1800s, grizzly bears numbered around 50,000 across the continental U.S. By the 1950s, they were nearly extinct. Since then, federal protections have grown the population to around 2,000 grizzlies, enough that the bear has officially been removed from the endangered species list.

THAT'S ONE BIG CHUNK OF ICE

Weighing one trillion tons and comparable to the state of Delaware in size, a massive iceberg broke free from Antarctica's Larsen C ice shelf, reducing the shelf's size by 12%. Although icebergs break away from arctic shelves naturally, there is debate about the role of climate change in arctic shelf fragmentation.

Eclipse seekers flocked to catch a glimpse of the rare event during its brief journey, many capturing and sharing the moment across social media platforms.

CONSTRUCTION CREW DIGS UP THE PREHISTORIC PAST

A construction crew uncovered something very unexpected and very old while working on a project for the city of Thornton, CO: A triceratops fossil dating back 66 million years. The discovery includes the remains of a triceratops skull, only 1 of 3 ever found in the region. Unsurprisingly, construction ceased immediately while archaeologists continued the excavation.

WORMS, AN UNLIKELY HERO

Over a trillion polyethylene bags are produced every year, and each takes up to 100 years to break down. Scientists may have found a unique solution to this environmental problem. It turns out that 100 wax worms can chow down 92 milligrams of a plastic in 12 hours. Researchers are studying how the worms digest the plastic and will attempt to replicate it.

EQUIFAX UNDER FIRE

Between May and July, hackers breached servers belonging to credit bureau Equifax. Sensitive data was stolen, including the social security and credit card numbers of 143 million U.S. consumers. Roger Federer took home another title at Wimbledon this year, his first since 2012. The underdog Philadelphia Eagles won their first world championship in an offensive classic over the New England Patriots 41-33 in Super Bowl 52. The two teams combined for 1,151 yards, shattering the record for most in any postseason game. Quarterback Nick Foles, who started the year as the Eagles backup, ended as the game's MVP by throwing for 373 yards and three touchdowns. In a trick play, he also became the first player in Super Bowl history to throw and catch a touchdown in the same game.

LYNX NAB WNBA CHAMPIONSHIP TITLE ONCE AGAIN
