Once a Hornet,  
**ALWAYS** a Hornet

2019

# **Once A Hornet, ALWAYS A Hornet**

*Once you're a hornet, there's no going back,  
You'll always be a hornet, you're part of the pack.  
Once you've experienced the good cafeteria chicken,  
You'll crave more and your heart rate will quicken.  
You were forced to wear an ID for 4 difficult years,  
That bright green lanyard surely had you shed some tears.  
Watching "Good Morning Hornet" every day at 8:04,  
Always making you laugh and never being a bore.  
Throwing baby powder at every football game,  
The Swarm always full of energy and never lame.  
From bathroom scanners to the legendary Girls' Show,  
I don't have to tell you this because  
PV, You know.*

# SENIOR CLASS ADVISORS

Dear Seniors,

Congratulations Hornets, Class of 2019! As you take flight from our happy nest, always carry your PV pride. There are many special moments ahead of you. We know the foundation that was built here at PVHS will enable you to achieve whatever you strive for in the future. Of course you may feel the stings of life as you journey on, but never forget you have the support of your Hornet colony. Whatever you may become: carpenter, Marine, knight, eagle, pioneer, or lion, you will always be a Hornet!

Best Wishes,

Mrs. Miskovich

&

Mrs. Mulcahy

# To the Class of 2019

Dear Class of 2019,

Congratulations! It is hard to believe that it is time for you to graduate. As I shared with you in September, we both came to Passaic Valley in the same year, and while it seems like we all just walked through the door we are saying goodbye. However, remember, it is never goodbye because I know you will take the memories of your time here at Passaic Valley with you. I hope that you have learned much both in and out of the classroom, and that what you have learned will serve you well in whatever life experiences you encounter. I will share one bit of advice with you so when you read this letter years from now, I hope you might think that it was wise enough to stand the test of time. ***I believe at this time the most important thing that you can do at this point is to really get to know yourself.*** Think about what you are good at, reflect on what you love to do, and see if there is a career option has a strong connection to your talents and what makes you happy. If you can do this then you will be certain of success because you will work hard and never give up. Do not make the mistake of thinking that this will be easy, because it won't, but at least you will have that certain joy that comes from doing what you love. Michael Jackson once said, "I've failed over and over again in my life... that's why I succeed." Whether you end up doing something just to do it, or choose to do what you love, you will face obstacles, those hard times will be well worth it if you are doing what you love to do.

I wish you all the best as you enter adulthood and live your dreams.

Warm Regards,

Dr. Cardillo  
Superintendent

# To the Class of 2019

Dear Class of 2019,

The staff at Passaic Valley High School joins me in congratulating you upon your graduation. We have watched all of you grow so much over the past four years, and we know you are all ready to make this move.

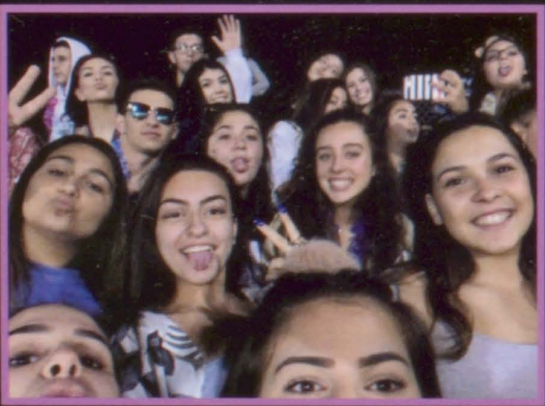

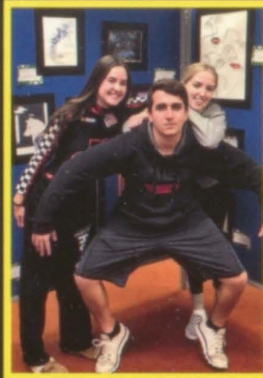

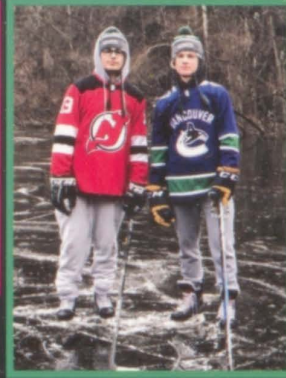

It is the student body, and in particular, the senior class, that enlivens a school's existence, breathes life into its halls, sets its tone and enhances its reputation. It is the duty of a senior student not only to achieve this level of admiration, but to stimulate in the underclassmen that very spirit of pride which is so essential and such a defining characteristic of Passaic Valley High School. This spirit is generated by the seniors in their roles as student leaders, as scholars, and as athletes. The force of this spirit is carried by the bonds of fellowship which links not one year, but all four years you have spent here at Passaic Valley. All of this must take place in the framework of a high school that glories in tradition and transforms our students intellectually, athletically, and socially.

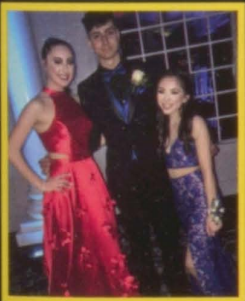

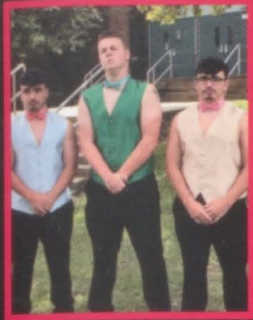

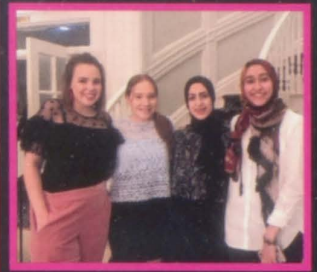

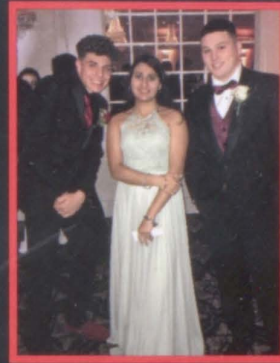

Passaic Valley has provided you with a very special, shared experience that is truly unique. I hope that all of you will carry this experience with you wherever you go, and that the memories of your time here will inspire you as you take this next big step in your life. You must all build upon the accomplishments of the students of the past. We must continue to cherish the sense of pride in what it means to be a graduate of Passaic Valley. In the final analysis, all students are stirred by this spirit and this pride. You are part of PV, and PV is a part of you! Now that you are joining the Passaic Valley alumni family, we hope you will keep in touch with us. Let us know how you are doing and remember that you are always welcome back to visit. Best wishes from all of us at Passaic Valley High School and good luck in all your pursuits!

Sincerely,

Raymond Rotella  
Principal

## DEVASTATING CALIFORNIA WILDFIRES

California's record-setting wildfire season involved more than 13,000 firefighters battling 17 large blazes that covered nearly 600,000 acres. The Mendocino Complex Fire burned 283,300 acres alone, making it the largest in Calif. history. The Camp Fire was the deadliest, taking 86 lives and destroying nearly 14,000 homes.

## YOUTUBE IS THE MOST POPULAR SOCIAL PLATFORM FOR TEENS

According to a 2018 study, YouTube is the most popular social platform amongst teens. Approximately 85% of young people ages 13-17 say they use the video platform.

**POLAR VORTEX BRINGS ARCTIC COLD WEATHER**

A polar vortex brought record low temperatures and wind chill values in the 40s, 50s and 60s below zero to much of the Midwest and Northeast. Because the extreme arctic cold causes frostbite within minutes, schools, colleges and universities closed, and the U.S. Postal Service suspended mail delivery in parts of 10 states.

**LEBRON OPENS NEW SCHOOL IN HOMETOWN**

The I Promise School, a collaboration between the LeBron James Family Foundation and Akron Public Schools, opened its doors to 240 3rd and 4th graders in Ohio. Students in the 2018-19 inaugural class received free uniforms, meals, bicycles and guaranteed tuition for graduates to the University of Akron. James, who has won 3 NBA championships, called the school opening the greatest moment of his career.

**PODCASTS BECOMING MORE POPULAR**

More and more people are jumping on the podcast bandwagon. There are now over half a million podcasts and growing even though it's been around for over a decade. From celebrities, athletes, bloggers and more, everyone wants in on the fun.

**MISSION IMPOSSIBLE BECOMES MISSION ACCOMPLISHED**

The world cheered when a daring 3-day rescue operation with 90 expert divers successfully guided the Wild Boars soccer team out of Thailand's Tham Luang cave system and back to safety. The 12 boys and their coach were trapped for 17 days in underground passageways after heavy rains flooded their exit.

**PET INFLUENCERS ARE POPULAR**

Pets are outperforming verified humans as Instagram influencers. Your beloved, furry friend can also earn big bucks creating content for pet food companies, vacuum manufacturers and fashion brands. Doug the Pug makes \$500,000 annually by acting, modeling and selling merchandise online. Lionel the Hog, a hedgehog, achieved instant fame after Joe Jonas reposted one of his photos. It's a ruff life.

## SLEEPING IN FOR SUCCESS

Researchers at the University of Washington studied chronically sleep deprived Seattle teens as 18 high schools and most middle schools pushed their start times back from 7:50 to 8:45 a.m. Sleep on school nights increased from 6 hours and 50 minutes to 7 hours and 24 minutes, resulting in a 4.5% increase in grades and an improvement in attendance.

### EARTHQUAKE HITS ALASKA

A 7.0 earthquake rocked Alaska near Anchorage, the state's most populated city. The initial impact produced shaking in a 30-mile radius, with ground movement felt 250 miles away in Fairbanks. The impact damaged homes, buildings, roads and bridges, leaving more than 50,000 people without phone service or power. It's the worst earthquake to hit the area since 1964, the result of an unnamed fault 27 miles deep inside the Earth's crust.

### 2018 IS HOTTEST ON RECORD

Countries across the globe experienced unusually high summer temperatures. Asia was the hardest hit, along with northern Europe, the U.S. and Canada—which recorded temperatures similar to the Middle East or Africa. Even the Arctic Circle didn't escape the heat, with dozens of wildfires in the region. Nuclear plants had to scale back energy production or shut down entirely to prevent reactors from overheating.

### SAVE THE BEES

Bees play an essential role in our ecosystem but sadly, their population has been in a constant decline since the late 90s. One of the reasons for this is the use of harmful pesticides in industrial agriculture. Canada has taken the first steps to protect the bees by phasing out certain outdoor pesticides that are linked to killing the bee population. This change is expected to happen by 2021.

### HURRICANE MICHAEL'S DESTRUCTION

Hurricane Michael made landfall as a Category 4 storm and caused extensive damage to the Florida Panhandle, Georgia, Virginia and the Carolinas. With wind speeds of more than 150 mph, Michael produced 14-foot storm surges in coastal areas and dumped up to 12 inches of rain.

### HARRY AND MEGHAN'S REALLY BIG YEAR

Nearly 2 billion people across the globe watched the royal wedding of England's Prince Harry and American actress Meghan Markle in St. George's Chapel at Windsor Castle. The couple became the Duke and Duchess of Sussex after the ceremony, titles conferred by Queen Elizabeth II. Five months later, it was announced they are expecting a baby in spring 2019.

## TESTING TESLA'S TUNNELS

The Boring Company created a 1.14-mile tunnel about 30 feet below the ground's surface near Hawthorne, CA. Resembling an underground highway, test runs with a Tesla Model X traveled at 40 mph. Future iterations will be faster and smoother, requiring electric cars to avoid fumes from gas.

## SAY GOODBYE TO PLASTIC STRAWS

Plastic straws started to become a thing of the past as companies like McDonald's, Starbucks, Shake Shack and the city of Seattle enacted bans to reduce the environmental impact in landfills and oceans. Demand for the green alternative, paper straws, has seen a 5,000% increase—which is great news for Aardvark, the sole maker in America.

## CHINA LANDS ON FAR SIDE OF MOON

China made history with the first-ever soft landing on the far side of the moon. Chang'e-4, a 6-wheeled rover, landed in the shadowed crater of the Von Kármán. Scientists hope to better understand the structure, formation and evolution of Earth's natural satellite. China has ambitions for future crewed lunar missions, and wants a space station up and running by the early 2020s.

## COULD THE SAHARA DESERT BECOME GREEN?

What if the Sahara Desert was transformed into a giant solar and wind farm? A new study suggests that hypothetical solar panels and wind turbines would make the immediate surroundings warmer and rainier. This would turn parts of the Sahara green for the 1st time in 4,500 years, with precipitation levels similar to Greece or Argentina.

## UNDERGROUND LAKE FOUND ON MARS

Scientists discovered what appears to be a sizable salt-laden lake under the ice on the south pole of Mars. The 12-mile wide reservoir is located a mile beneath the ice's surface and may contain a habitat for microbial life. While the lake is currently unverified, it's a significant milestone in the quest to determine if there is life on Mars.

## GOOD DOG MAY SAVE ENDANGERED OWL

Tasmanian masked owls are one of Australia's most elusive endangered bird species. Because they are nocturnal and live in inaccessible forests, only 30 have been identified from 850 recent attempts. The Difficult Birds Research Group has trained a dog named Zorro to sniff out pellets coughed up by the owls. The hope is that Zorro will lead scientists to the rare birds for conservation research.

## IT'S TIME FOR SLIME

Slime is having a moment. While the exact ingredients are up for debate, the popularity is not. If you search "slime" on YouTube, you'll get 29 million results and Instagram has 20 million posts. The types of slime are endless with fluffy, rainbow-colored, glitter, sequined and more.

## LONGEST "BLOOD MOON" ECLIPSE OF THE 21ST CENTURY

A blood-red moon provided picture-perfect moments as it moved into the Earth's shadow for 1 hour, 42 minutes and 57 seconds, the longest lunar eclipse of the 21st century. The nickname "blood moon" comes from the red color caused by projections of the Earth's sunrises and sunsets onto its surface. If you missed it, you'll have to wait. The next eclipse of that length is due in 2123.

A record 3.9 billion people were online in 2019, representing a transformative new milestone in the digital revolution. It's the first time over half of the world's population will be using the Internet. The largest rate of growth comes from Africa, which has increased from 2% in 2005 to 24% this year. The milestone is not only historic, but also important as people can gain access to critical healthcare and educational services online.

## STREAMING ONLINE CONTENT SOARS

Consumer streaming content on Netflix, Prime Video and Hulu represents the entertainment industry's biggest shift in nearly 50 years. People not only watch shows in their living rooms, but also on laptops, tablets and smartphones. Netflix is the leader, with 130 million subscribers, but will soon have new competition. Disney plans to enter the market, backed by the power of Pixar, Marvel, Star Wars and other top brands.

## TRIBUTE TO A TECHNOLOGY PIONEER

The technology world lost a visionary with the passing of Paul Allen, who co-founded Microsoft with Bill Gates in 1975. Their contributions helped create the personal computer revolution. Allen's philanthropy was significant, with initiatives benefiting science, arts, pro sports, space exploration, global health and conservation.

## AN INVISIBILITY CLOAK IS IN OUR FUTURE

Who knew it took science and light, rather than magic, to create a real invisibility cloak? Researchers discovered that altering the way colored light waves go through objects makes it possible for those objects to look invisible. While we can't wear Harry Potter-style invisibility cloaks yet, it could be used for future government endeavors.
