

Abington Public Library Young Adult Collection Development Policy

The Abington Public Library's objective in selecting and organizing materials for young adults is to make available a collection that meets the recreational, informational, and cultural needs of young adults and adults who work with young adults.

The *Abington Public Library Strategic Plan, FY2024 – FY2028* includes the following service priorities:

- Literacy and Lifelong Learning
- Community Connections
- Access for All
- Focus on the Future

This policy is aligned with the Abington Public Library General Collection Development Policy, and follows the General Collection Development Policy regarding requests for reconsideration.

General Principles

The Children's Librarian is responsible for overseeing the selection of young adult materials. The Children's Librarian will work in conjunction with the staff members responsible for selecting adult materials to avoid purchasing unnecessary duplicate materials.

Materials selection will be made after reading two reviews from reputable professional journals such as *School Library Journal*, *Booklist*, *Publisher's Weekly*, *Horn Book Magazine*, *Kirkus Reviews* or similar when possible.

Materials selection for the nonfiction collection will be evaluated on accuracy, scope, format, and currency. Each subject area should be covered with as great a depth as availability allows. Nonfiction series materials will be evaluated as individual items.

Materials selection for the fiction collection will be evaluated on currency and format. Materials selection will include a range of genres, interests, and reading abilities. Series fiction materials will be evaluated and included in the collection after consideration regarding funding and availability elsewhere in the library community.

Materials containing profane language, sex, or other content will not be automatically rejected. Selection will be made on the basis of whether the book presents life in its true proportions, and whether characters and situations are realistically presented for the intended audience.

Titles are replaced when materials are lost or in poor condition only when the title is needed because of quality, demand or content. Duplicate copies of materials are purchased when demand requires. However, the Abington Public Library cannot purchase multiple copies to satisfy all the needs of the school curriculum.

Updated by the Board of Library Trustees 10/18/04, 02/09/10, 2/28/2022, 11/21/2022

Requests for titles from patrons or staff will be given consideration. The Children's Librarian will determine if requested titles meet selection criteria.

Withdrawing Materials

Materials are withdrawn regularly to ensure that all materials meet general principles of collection development. Materials may be removed from the collection after evaluation because of unnecessary duplication, poor condition, biased or obsolete content, or disuse. Considerations for space may also be made.
