

SOCIAL SOFTWARE POLICY

The Baker Free Library uses various online social software services to provide public forums for sharing ideas, opinions, and information about library-related subjects and issues. These forums are intended to create welcoming and inviting online spaces where library users can interact with library staff and other library users while finding useful and entertaining information related to the library's activities and resources. The Baker Free Library regards online social software in the same way as its other information resources in accordance with its mission of serving the informational, educational, and leisure needs of Town of Bow residents.

Definition of online social software

Online social software is defined as any website or application which allows users to digitally share information. Social software can include, but is not limited to, blogging, instant messaging, social networking sites, wikis, posts to community reviews, and patron ratings of library materials via the library's website.

Parental Controls and Privacy

As with more traditional resources and the Internet, the Library does not act in place of, or in the absence of, a parent/guardian and is not responsible for enforcing any restrictions which a parent/guardian may place on a minor's use of social software applications.

The Library does not collect, maintain, or otherwise use the personal information stored on any third party site in any way other than to communicate library-related information with users on that site, unless granted permission by users for Library contact outside of that specific site. Users may remove themselves at any time from the Library's friends, fans, or followers lists, or request that the Library remove them. Users should be aware that third party websites have their own privacy policies and should proceed accordingly.

Users are encouraged to protect their privacy by not posting personally identifying information, such as last name, school, age, phone number, or address.
