

## Town of Belmont, NH SOLAR ARRAY INSTALLATION BUILDING PERMIT APPLICATION

- Applications and Assistance are available in the Town Hall Land Use office (603-267-8300x3).
- Completed applications are usually processed within 14 business days. Building construction plans are required.
- New or upgraded driveways, including (re)paving an existing driveway require a permit.
- Applicant is responsible to assure all information correct.
- Permits **expire** if not substantially acted upon and **at least one inspection has not occurred within 6 months**.

**INSPECTIONS REQUIRED:** Applicant is required to call the Building Inspector for all required inspections (setback, foundation, framing, rough plumbing, rough electrical, insulation and final). Failure to obtain a "certificate of occupancy/use"/final inspection for ALL completed construction can/will delay the issuance of this/future permits. Fees are due with application, checks made payable to "Town of Belmont". Fees for approved applications are non-refundable.

## Solar Panel Permit Application Supplement

## **Check One:**

Ground Mount Array: \_\_\_\_\_

Roof Mount Array:\_\_\_\_\_

## **Required Information:**

- <u>Aerial View or Site Plan</u> of where the panels are to be located on the building or the ground. *For ground arrays the distance to all four property lines must be indicated on the site plan.*
- \_\_\_\_ Set of construction documents and plans
- \_\_\_\_ Copy of inverter manufacturer specifications
- \_\_\_\_ Copy of photovoltaic system module manufacturer specifications
- \_\_\_\_ Copy of manufacturer installation instructions
- \_\_\_\_ For ground mount array engineering evaluation resistance to uplift of the supporting system along with a plot plan showing distance from array to property line and wetlands. For commercial properties site plan approval may be required.
- \_\_\_\_ For roof mount array- stamped structural engineering evaluation of existing roof. Engineer to certify existing structure is adequate to support additional roof loading (the number of panels used for the evaluation must be listed in the report).

## **Please complete the following:**

Inform	nation about the solar PV system:			
	Size of the system (kilowatts AC):			
	Number of solar panels:       Size (capacity) of the inverter in kilowatts:			
	Size (sf) of Panels:			
Numb	per of arrays:			
Total	Total Square Footage of Array(s):			

## **Inspections:**

Trenches (if applicable); Service Attachments; Final

A structural inspection will be required for ground mounts (footings) <u>or</u> roof applications when structural modifications are required to the existing roof support system.

#### MUST BE SIGNED BY LAND OWNER <u>AND</u> BUILDING OWNER (For demolitions and relocations signatures in both places are required)

**LAND OWNER:** I hereby certify that to the best of my knowledge this information is valid and that there is no violation of the approved ordinances, codes, and/or regulations of the Town of Belmont. I authorize the Members of the Board or their staff to enter onto this property and take both land and aerial photos for the purposes of this discussion.

Land Owner's Signature:	Date:
(For Campground, Condominium or other non-individual form of ownership, signature	of representative of Association required)

**BUILDING OWNER:** I hereby certify that the proposed work will conform to all applicable laws of this jurisdiction. In addition, all site work shall conform to NH Department of Environmental Services Regulations, and Best Management Practices shall be implemented to restrict any erosion or sedimentation. I hereby certify that to the best of my knowledge this information is valid and that there is no violation of the approved ordinances, codes, and/or regulations of the Town of Belmont. I authorize the Members of the Board or their staff to enter onto this property and take both land and aerial photos for the purposes of this discussion.

Building Owner's Signature:	Date:
6 6	

## CHOOSE ONE:

E-Mail me the permit. (E-mail address:)	
Call me when ready and I will pick up. (Name/Tele. No to call:)	
Mail**. (Mailing address:) **must include self-addressed stamped envelope with permit application**	
***must include self-addressed stamped envelope with permit application***	

# PERMIT MUST BE IN-HAND PRIOR TO BEGINNING PROJECT AND ON-SITE DURING PROJECT

## OFFICE USE ONLY

Date:

Proposal complies with applicable Land Use Regulations. Planning Board Chairman (or authorized signer)\_\_\_\_\_ Conditions:\_\_\_\_\_\_

Date Variance/Special Exception Granted:\_\_\_\_\_\_ Purpose/Conditions:\_\_\_\_\_\_

## PLOT PLAN INSTRUCTIONS

A Plot Plan to be provided below. Include the following information on each proposed structure/addition. A sample sketch is shown above.

NT .1			
North arrow	All proposed structures and additions showing overall dimensions		
Boundaries of lot with dimensions in feet	Location of any wetlands, floodplain, streams, etc. on site		
Include all proposed decks, landings, exterior stairs, porches	Existing structures on lot: include septic system, drainage structures,		
and overhangs	wells and utilities		
Names & locations of roads adjacent to lot	Location of any on-site or adjacent cemeteries or burial sites		
Setback (distance from structure) in all directions to:			
All property lines (front setback is measured from property line, not from the road)			
All waterbodies and wetlands			

Location of existing & proposed driveways (Driveway application required for new/expanded/paving existing/change of use) Measuring Setbacks in campgrounds and manufactured home parks – Add the following:

Nearest structure on adjacent sites (identify type of structure), roads, and exterior property lines of the park or campground Any additional information that will adequately describe the proposed work

> COMPLETE PLOT PLAN REFER TO INSTRUCTIONS AND EXAMPLE ABOVE – INCOMPLETE PLOT PLAN WILL DELAY PERMIT
