

CHAPTER 10

BUSINESS LICENSING AND REGULATION

ARTICLE 42. TAXICABS AND LIMOUSINES

SECTION

- 10-42-1: Definitions
- 10-42-2: License Required
- 10-42-3: Enforcement Powers and Duties
- 10-42-4: Duties of Licensees Under This Article
- 10-42-5: Duration of Licenses
- 10-42-6: Applications; Information Required
- 10-42-7: Inspection of Vehicles and Taximeters
- 10-42-8: Qualifications of Taxicab or Limousine Drivers;  
Examination of Applicants
- 10-42-9: Public Convenience and Necessity Required;  
Standards; Procedure
- 10-42-10: Compliance by Business Licensee; Surety Bond and  
Insurance Policy Required
- 10-42-11: Form of Licenses
- 10-42-12: Suspension, Revocation of License or Permit
- 10-42-13: Appeal

10-42-1: DEFINITIONS: As used in this Article:

a. "Limousines" means and includes public vehicles with a seating capacity of six (6) or more persons.

b. "Owner" means every person having the use or control of one (1) or more taxicabs as herein defined.

c. "Taxicab" means all public vehicles driven by mechanical power used for the carriage of persons for hire, except those vehicles commonly known as buses or as limousines.

d. "Taximeter" means a mechanical instrument or device by which the charge for hire of a taxicab is mechanically calculated, either for distance traveled or for waiting time, or for both, and upon which such charge shall be indicated by means of figures.

10-42-2: LICENSES REQUIRED:

a. Taxicab or Limousine Business License. Every person conducting a taxicab or limousine business within the municipality, including the operation of taxicabs or limousines, which shall pick up passengers either on a casual basis or on call within the Village, shall obtain a taxicab business license in accordance with the provisions of this Article.

b. Taxicab or Limousine Vehicle License. No taxicab or limousine shall ply upon the streets of the municipality without first obtaining a taxicab vehicle license from the Clerk; provided, however that this provision of this Article shall not prevent taxicabs or limousines licensed by other municipalities from entering the municipality for the purpose of depositing passengers who were legally picked up outside the municipality. Such taxicabs and limousines shall not pick up passengers within the municipality.

c. Taxicab or Limousine Driver's License Required. Every person driving a taxicab or limousine within the municipality as provided in b. above must be licensed as a driver by the State of Illinois and as a taxicab or limousine driver by the municipality.

10-42-3: ENFORCEMENT POWERS AND DUTIES.

a. Chief of Police. The examining of applicants for licenses to drive taxicabs, and the enforcing of the provisions of this Article, shall be under the control of the Chief of Police.

The Chief of Police shall maintain a constant vigilance over all taxicabs and see that they are kept in a condition of continued fitness for public use. The Chief of Police may direct that the owners of such taxicabs or limousines shall have them tested at a reputable testing lane or by the vehicle maintenance personnel of the municipality and the taximeters inspected when there is cause to believe that such vehicles or taximeters are in violation of the Article.

b. Clerk. The issuance of all licenses provided for under this Article shall be the responsibility of the Clerk. There shall be kept in the office of the Clerk a complete record of each license issued under this Article, and of all renewals, suspensions or revocations thereof. The Clerk's record shall be kept on file with the original application for a license. Such records shall be open to the inspection of the public at all times, and shall be public records, extracts of which may be certified for use as evidence by the Clerk.

c. Inspector of Weights and Measures. The inspection of taximeters shall be the responsibility of the Inspector of Weights and Measures. It shall also be the duty of the Inspector of Weights and Measures to seal all taximeters found accurate and correct, and to keep a record of the numbers of each taximeter and the date of the inspection thereof in the books in his office.

10-42-4: DUTIES OF LICENSEES UNDER THIS ARTICLE:

a. Public Service of Vehicles Requires; Abandonment. The licensee shall regularly and daily operate his vehicle or vehicles during each day of the licensed year to the extent reasonably necessary to meet the public demand for such service. Such service shall be deemed abandoned when the service is discontinued for a period of ten (10) consecutive days by the owner or operator of the service.

b. Vehicles to Be Kept in Good Condition. It shall be unlawful for the owner or operator of a taxicab or limousine to operate or keep in use a vehicle which is not in good condition for operation.

c. Practices Prohibited; Duties of Taxicab and Limousine Drivers. It shall be unlawful for taxicab or limousine drivers to engage in the following practices:

1. defacing, removing or obliterating any official entry made upon his taxicab driver's license;
2. charging or attempting to charge any passenger a greater fare than that to which such driver is entitled under a rate schedule for taximeters established by, or under a flat rate approved by, the municipality;
3. failure to report to the Police Department any change in address at any time before the expiration of his license;
4. repeatedly and persistently driving his taxicab about the streets of the municipality or otherwise interfering with the proper and orderly access to or egress from any place of public gathering.

d. Taximeters Required:

1. No person shall use or permit to be used, or drive for hire, a taxicab not having a taximeter, or to which is attached a taximeter that has not been duly inspected and approved, or which is equipped with a taximeter the case of which is unsealed and not having its cover and gear intact.
2. No person shall detach any certified or inspected taximeter from any taxicab and attach the same to any other taxicab the front wheels of which are of different diameter from those with the reference to which such taximeter was originally tested, unless a new inspection or certification is had on such taximeter.

10-42-5: DURATION OF LICENSES: The licenses required under this Article shall be issued for the calendar year or such portion thereof as remains at the time a license is applied for, and shall be effective for such period of time unless sooner suspended or revoked.

10-42-6: APPLICATIONS; INFORMATION REQUIRED:

a. Taxicab or Limousine Business Licenses. Applications for a business license shall be made to the Clerk by the owner or operator of the taxicab or limousine company or business. Such application shall be in conformance with the general requirements of this section and shall contain the name and address of the business or company, and the name of the owner of the business or company and his address, if different from the address of the business or company; the number of vehicles and the class of vehicles for which the business license is sought; the names of other municipalities for which the business or company either has a current business and/or vehicle license, or has had at any time a business and/or vehicle license; the names of banks or other financial or credit institutions where the applicant does business or has accounts and any additional credit references; the color scheme to be used by the applicant; a separate application for each vehicle for which a license is sought, containing information as specified in paragraph b. of this section; and such other information as the corporate authorities may deem necessary for a finding of public convenience and necessity. The separate applications for vehicle licenses shall be referred to the Chief of Police for his review and approval in conformance with the requirements of Section 10-42-7 of this Article. Upon his determining that the business license application is complete, the application for a business license and the applications for vehicle licenses shall be forwarded by the Clerk to the corporate authorities for a declaration of public convenience and necessity.

b. Taxicab or Limousine Vehicle Licenses. Applications for licenses for taxicabs or limousines shall be made to the Clerk by the owner or operator thereof in conformance with the general requirements of this section pertaining to applications for vehicle licenses and shall contain the full name and address of the owner or operator, the class of the vehicle for which the license is desired, the length of time the vehicle has been in use, the number of persons it is capable of carrying, and if a motor driven vehicle, the motor power thereof. Such application shall thereupon be referred to the Chief of Police for his review and approval after the vehicle has been inspected as provided in Section 10-42-7 of this Article. After the Chief of Police endorses the application, he shall file the same with the Clerk, who shall, upon receipt of payment of the prescribed fee, issue the license therefor.

c. Taxicab or Limousine Driver's Licenses. Any person desiring to secure a taxicab or limousine driver's license shall make application in writing therefor to the Clerk. Such application shall set forth the name of the applicant, his residence and occupation, and shall be endorsed by the owner of the taxicab or limousine business the driver is to be employed by who shall certify that the applicant is a fit person to drive and operate a taxicab or limousine. Said application shall be accompanied by the required fee.

Along with such application, the applicant shall file an affidavit stating his full name, residence, places of residence during the previous five (5) years, age, height, color of eyes and hair, place of birth, whether a citizen of the United States, places of previous employment, whether he has previously been licensed as a driver or chauffeur, and if so, whether his license has ever been revoked and for what cause, which affidavit shall be filed with the Clerk as a permanent record.

Such applicant shall also file with his application to the Clerk two (2) recent photographs of himself of a size which may be easily attached to his license, one (1) of which shall be attached to the license when issued, and the other shall be filed with a copy of the application in the office of the Chief of Police.

The Clerk shall forward the application to the Chief of Police for his examination of the applicant and approval of the application. If the Chief of Police shall approve the application, he shall endorse thereon such approval and return same to the Clerk, who shall issue such license.

10-42-7: INSPECTION OF VEHICLES AND TAXIMETERS:

a. General Requirements:

1. No vehicle shall be licensed until it has been thoroughly and carefully inspected and examined and found to be in a thoroughly safe condition for the transportation of passengers, clean, fit, of good appearance, and well painted.
2. Each taxicab shall have affixed thereto in good working order a taximeter. Limousines need not have a taximeter but may operate on a flat rate basis.
3. No license shall be issued for a taxicab until the taximeter attached thereto shall have been inspected as provided in this Article and found to be accurate.

b. Taximeter Equipment Standards. The dial of every taximeter with which every taxicab shall be equipped shall show but one (1) tariff. Such taximeter shall also properly and accurately register, indicate and display the time consumed by the taxicab while in waiting, the distance traveled, and the amount of fare to be determined and charged therefor. Each taximeter shall be equipped with a flag at least three (3) inches by two (2) inches in size, either painted red or bearing thereon in letters at least one (1) inch in height, the word "vacant," or the words "for hire." The flag post of such flag shall be kept up or towards a vertical position when the taxicab is for hire, and when such taxicab is engaged in the service of a passenger, such flag post shall be kept down or in a horizontal position.

Each taxicab required to have a taximeter shall, during the period between sunset and sunrise, be equipped with a light which shall be so reflected upon the dial of the taximeter as to enable the passenger engaging and using such taxicab to read the figures indicated thereon.

Every taximeter hereafter placed on a taxicab shall be so arranged that the dial thereof is in plain view of the passenger while riding in such taxicab, or upon alighting from the same.

c. Inspection Procedure:

1. The vehicle maintenance personnel shall make such examination and inspection before a license shall be issued, and the Inspector of Weights and Measures, or any inspector appointed by him, shall examine any taximeter attached to any taxicab and see that the same is accurate before the license to operate such a taxicab is issued.
2. It shall be the duty of the Inspector of Weights and Measures to examine and inspect and seal at least once in every six (6) months, all taximeters used in the Village; provided, however, that in the event a complaint is made to the Inspector of Weights and Measures that any taximeter registers improperly or inaccurately, then it shall be the duty of the Inspector of Weights and Measures immediately to examine and inspect such taximeter complained of; and if such taximeter does not comply with the requirements of paragraph b of Section 10-42-7, then and in that event, it shall be unlawful for the owner or person in charge of such taxicab to permit its use until such taxicab is equipped with a taximeter inspected and approved by the Inspector of Weights and Measures.

3. Every taximeter shall be tested by running the taxicab to which it is attached over a course of standard mile in length or by a mechanical test to prove the accuracy of the register thereof. Either of the foregoing tests may be made in the discretion of the Inspector of Weights and Measures.

In order to determine whether such taximeter correctly registers "waiting time," it shall be the duty of the Inspector of Weights and Measures to test such taximeter by comparing the time recorded as shown by the fare computed on the dial thereof with the standard time.

It shall be the duty of any person owning, controlling or operating a taxicab to deliver the taxicab, together with the taximeter, to the Inspector of Weights and Measures, or any of his deputies, for the purpose of making the aforesaid test upon demand; provided, however, that such person may, if desired, be present at the time such test is made.

10-42-8: QUALIFICATIONS OF TAXICAB OR LIMOUSINE DRIVERS; EXAMINATION OF APPLICANTS:

a. Qualifications of Applicant. Each applicant for a driver's license must:

1. be of the age of twenty one (21) years or over;
2. be of sound physique, with good eyesight, and not subject to epilepsy, vertigo, heart trouble or any other infirmity of body or mind which might render him unfit for the safe operation of a taxicab;
3. be able to read, write and speak the English language;
4. be clean in dress and person, and not be addicted to the use of drugs or intoxicating liquors.

b. Examination of Applicant. Each applicant for a driver's license under this Article shall be examined by the Chief of Police, or some person designated by him, as to the applicant's knowledge of the provisions of this Article, the traffic regulations and the geography of the municipality. If the results of the examination be unsatisfactory, the applicant shall be refused a license. Each such applicant must demonstrate his skill and ability to safely handle a vehicle by driving it through a crowded section of the municipality, accompanied by an inspector or other representative of the Chief of Police.

Each such applicant shall be fingerprinted and photographed by the Police Department.

10-42-9: PUBLIC CONVENIENCE AND NECESSITY REQUIRED; STANDARDS;  
PROCEDURE:

a. No taxicab or limousine business license shall be issued unless the corporate authorities of the municipality, after a hearing, shall, by resolution, declare that the public convenience and necessity require the proposed service for which application for a license is made.

b. Such declaration of public convenience and necessity shall not be necessary:

1. for the licensing of the same number of vehicles licensed for operation and operated by the applicant under the same name and colors for which license was issued previous to the passage of this Article, or the renewal of the same number of licenses annually thereafter;
2. for the renewal of licenses to the applicant for the number of vehicles of the applicant for which the corporate authorities shall have at any time prior to the date of application for such renewal made a declaration of public convenience and necessity.

c. Standards for Declaration of Public Convenience and Necessity; Procedure After Hearing on Public Convenience and Necessity. In determining whether public convenience and necessity require the licensing of such vehicles for which application may be made, the corporate authorities shall take into consideration the following:

1. whether the demands of public convenience and necessity require such proposed or such additional service within the municipality;
2. the financial responsibility of the applicant; the number, kind, type of equipment, the schedule of maximum rates proposed to be charged, and the color scheme to be used by the applicant;
3. the increased traffic congestion and demand for increased parking spaces on the streets of the municipality which may result;
4. whether the safe use of the streets by the public, both vehicular and pedestrian, will be preserved by the granting of such additional license; and such other relevant facts as the corporate authorities may deem advisable or necessary.

d. Procedure for Declaration of Public Convenience and Necessity:

1. If the corporate authorities find from the investigation and hearing that the public convenience and necessity justify the proposed service for which application for a license is made, it shall notify the applicant of its findings.
2. Within sixty (60) days thereafter, the applicant shall furnish to the corporate authorities any and all additional information which may be required. If the corporate authorities then find that the applicant is in compliance with all the terms of this Article, a license shall thereupon be issued to such applicant upon the payment of the proper license fee.
3. If the corporate authorities find from such investigation and hearing that the public convenience and necessity do not justify the issuance of a license, they shall forthwith notify the applicant of such finding.

10-42-10: COMPLIANCE BY BUSINESS LICENSEE; SURETY BOND AND INSURANCE POLICY REQUIRED: No person shall be licensed to operate a taxicab or limousine business or vehicle until the owner or operator thereof has complied with all the provisions of this Article, and with all sections of the State law pertaining to a surety bond or the insurance policy issued for the benefit of any person who might suffer damage by reason of the operation of such vehicles. Before issuing such license, the applicant shall submit to the Clerk the approval of such bond by the Secretary of State, or proof of the issuance of such insurance policy. Such surety bond or insurance policy may cover one (1) or more vehicles.

10-42-11: FORM OF LICENSES:

a. Business License. No separate license form is issued for a business license. However, the applicant will be notified in writing of the approval of his business license and the number of vehicle licenses authorized.

b. Vehicle Licenses.

1. The vehicle license to be issued by the municipality shall be in the form of a card which shall contain the official license number of the taxicab or limousine, together with the date of the inspection.
2. Such card shall be signed by the Clerk and shall contain a blank space upon which an entry shall be made of the date of inspection of such taxicab or limousine by the vehicle maintenance personnel of the municipality.

License cards shall be of a distinctly different color each year, and in the case of taxicabs or limousines, the license number assigned thereto shall in each case be the same as that issued to the vehicle for that year pursuant to law.

3. Such card shall be affixed to a conspicuous and indispensable part of each taxicab or limousine.

c. Driver's License. A taxicab driver's license shall be in such form as to contain the signature, physical description of the licensee, and a photograph.

10-42-12: SUSPENSION, REVOCATION OF LICENSE OR PERMIT:

a. When the condition, conduct or operation of a taxicab or taxicabs, or of a limousine or limousines, whether licensed or unlicensed, shall constitute a nuisance in fact and a clear and present danger to the public health, safety or general welfare; where the holder of any license shall have refused to allow an inspection of his taxicab; where a taxicab or limousine driver has engaged in prohibited practices; or where the vehicle service has been abandoned, the President shall be authorized to suspend any license for a period not to exceed ten (10) days.

b. Within eight (8) days after a taxicab or limousine business license, a vehicle license, or a taxi driver's license is suspended, the President shall call a hearing for the purpose of determining whether or not the license should be revoked.

c. Taxicab or limousine vehicle, business or drivers' licenses issued under this Article, unless otherwise provided, may be revoked by the President after notice and hearing as provided in paragraphs d. and e. of this section, for any of the following reasons:

1. any fraud, misrepresentation or false statement contained in the application for license;
2. any violation by the licensee of Article provisions relating to the license or the subject matter of the license;
3. conviction of the licensee of any felony or of a misdemeanor where such conviction indicates an inability to operate or participate in a safe, honest and legitimate business operation within the municipality;
4. failure of the licensee to pay any fine or penalty charge owing to the municipality;

5. refusal to permit an inspection of the vehicle, or any interference with a duly authorized municipal officer or employee while in the reasonable performance of his duties in making such inspections, or seeking any other information pertinent to the issuance or renewal of a license;
6. failure to maintain vehicles in good, safe and proper working order;
7. failure to change rates as required by the terms of this Article;
8. failure to employ properly licensed drivers;
9. abandonment of the taxicab or limousine service as provided by paragraph a. of Section 10-42-4 of this Article;
10. engaging of taxicab or limousine drivers in any of the practices prohibited under paragraph c. of Section 10-42-4 of this Article;
11. for cause. Such revocation, if ordered, shall not preclude prosecution and imposition of any other penalties provided for the violation of other applicable Articles of the municipality.

d. Notice of the hearing for revocation of a license shall be given in writing, setting forth specifically the grounds of the complaint and the time and place of the hearing. Such notice shall be sent by certified mail (return receipt requested) to the licensee at his last known address at least five (5) days prior to the date set for the hearing. If the licensee shall request a continuance on the date of the hearing, a ten (10) day suspension where invoked shall be in effect until two (2) days after the final hearing date.

e. At the hearing, the Municipal Attorney shall present the complaint and shall represent the municipality. The licensee or permittee shall be permitted counsel and shall have the right to submit evidence and cross-examine witnesses. The President shall preside and shall render the decision.

10-42-13: APPEAL: Any person aggrieved by the decision of the President in connection with the revocation of a license shall have the right to appeal to the Board of Trustees. Such appeal shall be taken by filing with the Clerk, within ten (1) days after notice of a revocation of a license, a written statement under oath, setting forth specifically the grounds for appeal. The Board shall thereupon set the time and place for a hearing on such appeal, and notice of such hearing shall be given to the applicant

or licensee or permittee in the same manner as provided for the hearing before the President. The decision of the Board on such appeal shall be final.

CHAPTER 10

BUSINESS LICENSING AND REGULATION

ARTICLE 43. TRAILER COACH PARK

SECTION

- 10-43-1: Definitions
- 10-43-2: License Required; Application
- 10-43-3: Fee
- 10-43-4: Inspection; Issuance of License
- 10-43-5: Parking and Locating Trailers Outside of Parks
- 10-43-6: Permanent Occupancy of Trailers
- 10-43-7: Location to Comply with Zoning Regulations
- 10-43-8: Park Plan and Facilities
- 10-43-9: Water Supply
- 10-43-10: Waste and Garbage Disposal
- 10-43-11: Service Building and Accommodations
- 10-43-12: Management

10-43-1: DEFINITIONS: As used in this Article:

a. An "automobile trailer," "trailer coach," "trailer," or "mobile home," means any vehicle or similar portable structure so used, designed or constructed as will permit occupancy thereof as a dwelling place or sleeping quarters for one (1) or more persons, or the conduct of any business or profession, occupation or trade, or use as a selling or advertising device, and so designed or constructed that it is or may be mounted on wheels and used as a conveyance on highways or public streets, propelled or drawn by its own or other motive power, excepting a device used exclusively upon stationary rails or tracks; provided that any such structure resting in whole on a permanent foundation, with wheels, tongue and hitch permanently removed, shall not be construed as a "trailer," "automobile trailer," "trailer coach," or "mobile home," but shall be construed as a structure or building within the meaning of the Building and Zoning Ordinances of the Village of Bridgeview, and subject to the provisions thereof.

b. "Dependent trail coach" or "independent trailer" or "independent automobile trailer" or independent mobile home" means one which is self-contained, with toilet and bath or shower facilities.

c. A "trailer camp" means any park, trailer park, trailer court, court, camp site, lot, parcel, tract or area of land designed, maintained or intended for the purpose of supplying a locatio or accommodations, or for harboring or parking one or more automobile trailers, trailer, trailer coach, mobile home, dependent or independent, and shall include all buildings, structure and

vehicles used or intended for use as part of the equipment thereof, whether a charge is made for the use of such trailer camp and its facilities or not. "Trailer Camp" shall not include automobile or trailer or mobile home sales lots or land on which unoccupied and uninhabited trailers, automobile trailers, mobile homes or trailer coaches are parked for purposes of inspection and sale in the regular course of business.

d. A "tourist camp" means any park, tourist park, tourist camp, court, site, lot, parcel, area or tract of land upon which one or more camp cottages or cabins are located and maintained for the accommodation of transients by the day, week or month, whether a charge is made or not for such use.

e. A "unit" means a section or area of ground in a trailer camp of not less than 3,000 square feet of unoccupied and unobstructed space designated and allotted as the location for one trailer, trailer coach, automobile trailer or mobile home, and plainly marked and delineated.

f. A "cabin plot" means a section of ground not less than 30 feet by 40 feet in area, upon which only one (1) camp cottage or cabin is located.

10-43-2: LICENSE REQUIRED; APPLICATION: It shall be unlawful for any person, firm or corporation to establish, operate or maintain or permit to be established, operated or maintained upon any real estate owned, controlled or leased by him or it, a trailer camp or tourist camp or combination of the two within the Village limits without first having secured a license therefor for each of them from the Village Clerk, granted and existing in conformity with and in compliance with the terms of this Code. Such license shall expire one (1) year from the date of issuance, but may be renewed under the provisions of this Article for additional periods of one (1) year. All permits to construct, all licenses to operate, and all permits to make alterations therein, shall be prominently displayed in the office of such trailer camp, or tourist camp. All licenses issued under this Article shall be nontransferable without the written consent of the corporate authorities, provided that the corporate authorities shall not withhold such consent where provisions of this Article have been met.

A written verified application for such license or any renewal thereof shall be filed with the Village Clerk on printed forms furnished by the Village, and shall set forth:

a. the full name and address of the applicant or applicants, or the names and addresses of the partners, if applicant is a partnership, and the name and style under which such person or partnership operates or proposed to operate, and any assumed name of such enterprise; or if the application is a

corporation, the names and addresses of the officers of such corporation, and the present or last occupation of the applicant at the time of filing such application, and whether such applicant is the owner or lessee of the tract of land on which it is proposed to operate and maintain such trailer camp or tourist camp, and the duration of such lease;

b. the location by common address and legal description of the tract of land upon which it is proposed to operate and maintain a trailer or tourist camp, or both;

c. if the fee of leasehold is vested in such tract of land in any person, firm or corporation, other than the applicant, the applicant shall file a verified statement of such owner or lessee, and that such applicant is authorized to construct or maintain such trailer or tourist camp and to make the application.

d. The application shall be accompanied by four (4) copies of the trailer or tourist camp plan showing the following, either existing or proposed:

1. the defined extent and area by metes and bounds used for camp purposes, and legal description of the land for such use;
2. roadway, driveways and walkways or walks and parking area to be paved or paved in accordance with the specifications and requirements of Village ordinances and this Article;
3. location and defined layout of sties or units with measurements indicted for trailer coaches or cabins consistent with this Article;
4. location, number of, and measurement of service buildings, or any alterations thereof, sanitary conveniences, including toilets, baths or showers, dressing rooms or areas, washrooms, laundries and utility rooms to be used by occupants of units or cabins and slop sinks and urinals consistent with this Article;
5. defined method and plan of sewage disposal, sewers, catch basins and drains and location thereof, consistent with the provisions of this Article;
6. defined method and plan of garbage disposal and location o garbage utensils consisting with this Article and other provisions of this Code relating thereto;
7. defined plan of water supply, piping and conduits, and location thereof, and of faucets and drinking facilities consistent with this Code;

8. defined plan and method of electrical lighting of structures, units and cabins, and parking area consistent with this Code.

10-43-3: FEE: The application for such license or renewal thereof shall be accompanied by a fee as specified in Article 1 of this Chapter for each unit or cabin plot in the existing or proposed trailer or tourist camp.

10-43-4: INSPECTION; ISSUANCE OF LICENSE: Upon receipt of the application for such license, or for the renewal thereof, the premises for such proposed or existing trailer or tourist camp shall be inspected by the License Inspector or his agent, and if said proposed or existing trailer or tourist camp will be or is in conformity with the provisions of this Article, said License Inspector shall approve of such license or renewal thereof, and said license shall be issued by the Village Clerk. If the license or renewal thereof is declined by the License Inspector, the reasons therefor shall be given in writing to the applicant. Licenses issued under the terms of this Article or renewals thereof convey no right to erect any building or structure, or to do any plumbing work, or electrical work, or to do any reconstruction, renewal, renovation or alteration of any building or structure, without compliance with the pertinent ordinances of the Village relating thereto.

No change in any sanitary facilities, method of water supply, sewer drainage, garbage or waste disposal, and no change in location or extent of units, shall be made by the licensee without first submitting a written application therefor to the Village Clerk and receiving a permit therefrom and a permit pursuant to building, electrical, plumbing and other ordinances.

10-43-5: PARKING AND LOCATING TRAILERS OUTSIDE OF PARKS: It shall be unlawful, within the Village limits, for any person, firm or corporation to park, occupy, reside in or store any trailer on any street, alley, highway or other public place, or on any tract of land owned or leased by any person, firm or corporation, occupied or unoccupied, within the Village, except in a duly licensed trailer or tourist camp as provided in this Article.

Emergency or temporary stopping or parking is permitted on any street, alley or highway for not longer than one (1) hour, subject to any further or other regulations, prohibitions, or limitations imposed by the traffic and parking regulations or ordinances for that street, alley or highway.

10-43-6: PERMANENT OCCUPANCY OF TRAILERS: Automobile trailers and mobile homes shall not be parked, used, occupied, maintained or stored as a permanent place of abode or as a permanent dwelling or for indefinite periods of time, except within a duly licensed park.

10-43-7: LOCATION TO COMPLY WITH ZONING REGULATIONS: No trailer coach park shall be so located that the drainage of the park area will endanger any water supply and the premises shall be properly graded and hard surface paved with asphalt, blacktop or concrete so as to prevent accumulation of storm or other waters. All such parks shall be well drained and shall be located in areas free from ponds, swamps and similar places in which mosquitoes may breed. No waste water from trailer coaches shall be deposited on the surface of the ground.

Each trailer coach, trailer, automobile trailer or mobile home in any trailer camp shall be allotted a unit of land for its occupancy of not less than 3,000 square feet. At no time in any trailer camp within the Village shall the number of trailers, trailer coaches, automobile trailers or mobile homes occupying such trailer camp exceed the number of units in such trailer camp. Each individual trailer unit shall abut or face on a driveway paved in accordance with the requirements of and specifications provided by the ordinances of the Village. Such driveways shall be maintained in good condition, having natural drainage into a Village catch basin, be well lighted at night and shall not be obstructed, and shall be at least twenty four (24) feet in width, giving easy access to public alleys. All driveways shall be open to public use and shall not be deemed to be or designated as "private property." There shall be an open space of at least ten (10) feet between the sides of every trailer, trailer coach, automobile trailer, or mobile home, and at least 10 feet between the ends of every such trailer, trailer coach, automobile trailer, or mobile home.

Every trailer and tourist camp shall be in the charge of a responsible attendant or caretaker at all times, whose duty it shall be to maintain such camp, its facilities and equipment in a clean, orderly and sanitary condition, and be answerable with the licensee, for any violation of the provisions of this Article or the ordinances of the Village.

No camp or cottage or cabin shall be less than two hundred eighty (280) square feet, nor less than fourteen (14) feet wide at its narrowest point, and not less than eight (8) feet high from floor to ceiling, and shall not have less than twenty seven (27) square feet of ventilating openings, and all windows shall be fully screened. If floors be of wood, they shall be raised not less than twelve (12) inches above the ground level.

The camp shall be so laid out that no unit or cabin shall be located farther than two hundred (200) feet walking distance from the toilets, water supply, and service buildings provided for herein, and walkways to such buildings shall be well lighted at night, and shall be paved in accordance with specifications required in this Code or applicable ordinances of the Village.

Fire protection facilities shall be available in every trailer or tourist camp, regardless of whether public fire fighting facilities are available and regardless of whether water under pressure is available in each trailer or tourist camp. Two (2) five (5) pound Carbon Dioxide (CO<sub>2</sub>) or four (4) pound dry powder fire extinguishers and a five (5) gallon water pump can of a type approved by the Fire Chief shall be maintained for each eight (8) units of cabins, and shall be placed at locations within two hundred (200) feet of each individual unit or cabin, and shall be periodically examined and kept at all times in condition for use.

Electrical outlets for each individual trailer unit shall be provided. Such outlet shall be equipped with an externally operated switch or fuse of not less than thirty (30) ampere capacity, and a heavy-duty outlet receptacle, and all electrical equipment, connections and wiring to any trailer unit or structure or building, or cabin or any trailer camp or tourist camp, and all installations thereof shall be in conformity with the Electrical Code of the Village. No connected electrical extension cord, if otherwise permitted under the Village ordinances, shall lie on the ground or be suspended less than seven (7) feet from the ground above all driveways, walkways, or pathways.

If community kitchens or dining rooms are provided, such facilities and equipment as are supplied must be maintained in a sanitary condition and in conformity with the health and other ordinances of the Village and kept in good repair.

All buildings and structures, all plumbing and sewage disposal systems, and all electrical and heating installations shall be constructed or altered in accordance with this Article and all other applicable ordinances of the Village.

10-43-9: WATER SUPPLY: An adequate supply of pure water of safe, sanitary quality, and water supply facilities and distribution system approved by the Illinois Department of Public Health, connected with the Village water main, with cold water supply faucets located not more than two hundred (200) feet from any trailer unit or cabin, shall be provided and maintained. Independent trailer units shall be provided and maintained with a cold water tap at least four (4) inches above the ground.

No common drinking vessels shall be permitted, nor shall any drinking water faucets be placed in any toilet room or water closet compartment.

An abundant supply of hot water shall be provided at all times for bathing, washing and laundry facilities.

The water supply lines shall not have a physical pipe connection with non-potable or questionable water supplies.

All water lines, stop and waste valves and sewer lines shall not be less than ten (10) feet apart horizontally, and shall be separated by undisturbed compacted earth. The minimum distance between sewer connections and water connection outlets for a trailer shall be five (5) feet horizontally.

Water and sewer lines shall not cross, except where such crossings cannot be reasonably avoided. At necessary crossings, the water lines shall be kept at least eighteen (18) inches above the top of the sewer, which vertical separation shall be kept and maintained at least ten (10) feet from the sewer each side of the crossing, or the sewer shall be constructed of cast-iron pipe with water-tight joints for a distance of ten (10) feet each side from the water line.

Manholes or cleanouts shall be provided at proper intervals to permit access to the sewers for the purpose of removing obstructions.

10-43-10: WASTE AND GARBAGE DISPOSAL: There shall be no discharge of sewage or waste water onto the surface of the ground, nor shall there be any escape of sewage odors from drainage systems. All waste from showers, toilets, laundries, faucets and lavatories shall be properly wasted into a sewer system extended from and connected with the Village sewer system.

All sanitary facilities in any trailer which are not connected with the Village or private sewer system shall be sealed, and their use is hereby declared unlawful and is prohibited.

Each faucet site shall be equipped with facilities for the drainage of waste and excess water into the sewer.

It shall be the duty of the owner or operator of a trailer or tourist camp to provide a flexible plastic or other elastomeric pipe connection of a quality approved under the Illinois Plumbing Code regulations promulgated by the Illinois Department of Public Health water and odor tight, securely and properly clamped with clamps or corrosion-resistant material, from the trailer water and waste drainage facilities to the sewer connection, and to make such connection and to keep all occupied trailers so connected to such sewer while located and occupying such trailer camp. Sewer connections in unoccupied trailer units shall be so closed that they will emit no odors or permit no escape of waste material or cause a breeding place for flies or rodents.

The storage, collection and disposal of refuse produced in a trailer or tourist camp shall be conducted so as to avoid the creation of conditions detrimental to public health such as (but

not excluding other) rodent harborage, insect breeding areas, air pollution and accidents and such trailer or tourist camp shall be maintained by the owner or operator, or his agents or servants or employees in a clean, orderly and sanitary condition at all times, and shall be kept free of weeds, litter and rubbish, including flammable debris, at all times.

All refuse which includes garbage, rubbish and tin cans shall be stored in water-tight metal containers having a tight-fitting lid, and shall be maintained in a sanitary condition and in good repair at all times. A container shall be provided at each unit with a minimum ration of a ten (10) gallon capacity for each trailer harbored at a trailer camp. Refuse shall not be allowed to be placed on the ground. Garbage or rubbish shall not be incinerated in the trailer camp or tourist camp area. Containers shall be emptied at least every three (3) days, and shall not be full to overflowing nor allowed to become foul smelling or a breeding place for flies.

Refuse containers shall not be located further than fifty (50) feet from any trailer coach or trailer, where a central location of containers is not employed, and where a central location of containers is employed, all containers shall be on a rack with at least eight (8) inches clearance off the ground surface, and not more than one hundred fifty (150) feet from any trailer. Where individual refuse containers are located at each trailer unit, the containers shall be placed on an impervious slab or off the ground surface.

Adequate insect and rodent control measures shall be employed and approved by the Village Health Commissioner. All buildings shall be fly and rodent proof, and rodent harborages shall not be permitted to exist in any trailer or tourist camp.

All plumbing fixtures and other equipment connected to the water supply shall be so constructed and installed as to safeguard the water supply from the possibility of contamination through cross connections or back siphonage. Laundry units and similar equipment shall be so constructed and installed as to prevent the contamination of the contents of backflow of sewage; when necessary, the fixture or appliance shall be connected indirectly with the drainage system.

10-43-11: SERVICE BUILDING AND ACCOMMODATIONS: Every trailer or tourist camp shall have erected thereon at a distance of not greater than two hundred (200) feet from any unit or cabin, designed to be served, a suitable community service building or buildings for housing toilets, showers and bathing and laundry facilities as required by the Article. Such building or buildings shall be constructed in compliance with the Building, Zoning, Health and Electrical Ordinances of the Village, having good natural and artificial lighting, adequate ventilation and floor of

concrete or similar impervious material. Concrete curbsings extending at least six (6) inches above the floor shall be provided, and the floor sloped to adequate drains. Walls and partitions shall be constructed of impervious material where subject to splash. Such buildings shall be maintained at a temperature of at least sixty eight degrees (68°) Fahrenheit during the period from October 1st to May 1st.

The community service building or buildings shall be provided with separate toilet rooms for each sex, plainly marked by appropriate signs, in which shall be installed flush toilets and lavatories with adequate water supply enclosed in separate compartments having a minimum width of four (4) feet six (6) inches, and shall be provided for each sex at the ratio of one (1) toilet, one (1) lavatory, one (1) bathtub or shower, and one (1) slop sink for each eight (8) units or cabins, or fraction thereof. Slop sinks shall have a rim flush mechanism and shall be equipped with hot and cold water faucets, and shall be located in separate rooms with outside entrances for each such sink. Every male toilet room shall have one urinal for each sixteen (16) units or cabins, or fraction thereof, but in no case shall any male toilet be without one (1) urinal.

Separate bathing facilities for each sex shall be provided. Each one (1) shower shall be enclosed in a compartment at least four (4) feet square with proper partition. A vestibule or screen wall shall prevent direct view into toilet rooms, shower or bathrooms. Toilet rooms shall not open directly to laundry rooms unless a vestibule is provided. In combination with each bath or shower stall, there shall be provided an individual dressing compartment of at least twelve (12) square feet and so arranged and enclosed as to ensure privacy. The floor of such compartment shall be waterproof and elevated at least three (3) inches above the floor of the shower stall, or a six (6) inch curbing provided, separating shower compartment from dressing room. Mats, grids, or walkways made of wood, cloth or other absorbent materials are prohibited for use in bath sections of community service buildings.

Laundry facilities shall be provided in the ratio of one (1) double tray and one (1) ironing board, or one (1) automatic washer and dryer, for each ten (10) units or cabins, or fraction thereof. No laundry facilities shall be located in toilet or bathrooms. Laundry rooms or buildings shall be constructed in the manner specified in this Article. Floors of laundry rooms shall be constructed of concrete or similar materials impervious to water and easily cleaned, and pitched to a floor drain.

Toilet and laundry rooms shall be well lighted at all times. The laundry room shall have an illumination of forty (40) foot candles on work areas such as wash tubs, dryers, ironing boards and sorting tables. Toilet rooms shall have an illumination of forty (40) foot

candles in front or mirrors. A mirror shall be furnished in each toilet room of adequate dimensions.

10-43-12: MANAGEMENT: The management of every trailer or tourist camp shall assume full responsibility for maintaining in good repair and condition all sanitary and safety appliances therein located, and shall promptly bring such action as is necessary to prosecute or eject from such camp any person or persons who fail to comply with the provisions of this Code.

Each trailer or tourist camp shall be provided with a custodian's office building, with an attendant or caretaker in charge at all times, where each trailer or tourist shall be assigned, upon entering such camp, to a unit or cabin location, and shall be given a copy of the ordinance governing such trailer or tourist camp, and shall be duly registered in the prescribed form. The camp license and a copy of this Article shall be posted in such office. The licensee shall keep a registry of all children of school age occupying trailers in such camps, and shall furnish a list of such names each month to the Superintendent of Schools of the applicable Elementary and High School District.

It is hereby made the duty of the attendant, caretaker, manager or person in charge of such trailer or tourist camp, together with the licensee thereof, to:

(1) keep at all times a securely bound and permanent register of all guests and occupants, which shall be open at all times to inspection by Federal and State officers and officers of the Village, and which shall show for all guests and occupants the following:

- a. name and address of each occupant and trailer operator or owner;
- b. date of entrance and departure;
- c. license numbers and state of issuance of all trailers, coaches, mobile homes, towing or other automobiles, including Village Vehicle License;
- d. statement indicating the last exact location where such trailer or automobile was last parked, including state, city, town or village where such parking last occurred, and length of stay;
- e. names of children of school age occupying such trailer or cabin;
- f. signature of each registrant.

Any person furnishing misinformation for the purpose of registration shall be deemed guilty of a misdemeanor and shall be punished in accordance with the provisions of this Code.

The registration records shall be neatly and securely maintained in chronological order of registration, and be bound form and no registration shall be destroyed until six (6) years have elapsed following the last date of registration.

It shall be the duty of such attendant, caretaker, or manager, together with the licensee of the camp, to see that the provisions of this Code are complied with and enforced, and to report promptly to the proper authorities of the Village any violations of this Code or of the law which may come to his attention; to report to the Health Commissioner all cases of persons or animals affected or suspected of being affected with any communicable disease; and to prevent the running loose of dogs, cats or other animals, or pets, in such tourist or trailer camp.

Temporary porches, canopies and skirts shall not be permitted for trailers, coaches, or mobile homes unless constructed of and consisting of fire-resistant material.

CHAPTER 10

BUSINESS LICENSING AND REGULATION

ARTICLE 44. TV CABLE INSTALLERS

SECTION

- 10-44-1: Permit Required
- 10-44-2: Contractors
- 10-44-3: Occupation of Streets
- 10-44-4: Fees
- 10-44-5: Applicability

10-44-1: PERMIT REQUIRED: It shall be unlawful to construct or erect any portion of a cable TV system prior to obtaining a permit from the Village. An application shall be filed with the office of the Building Commissioner upon such forms as he shall deem necessary. The application shall be accompanied by a set of plans showing the location of all work to be performed, and certified to as required by law.

10-44-2: CONTRACTORS: Persons (including individuals, partnerships or corporations) constructing or erecting any part of a cable TV system shall obtain a license and be bonded pursuant to the provisions of Article 9, Chapter 10 of the Village Code. Any person who installs wire or cable through which an electric charge is carried, or strand or conduit supporting such wire, shall be licensed as an electrical contractor. All other contractors shall be licensed as general contractors.

10-44-3: OCCUPATION OF STREETS: No street shall be blocked or occupied by any person constructing or erecting any portion of a cable TV system without obtaining a street occupation permit. For the purposes of cable TV, tie locations to be blocked or occupied shall be given to the Building Commissioner and the Director of Public Works at least two (2) business days prior to their blockage or occupation. Adequate warning devices, including barricades, shall be supplied to direct traffic to other areas by the contractor.

10-44-4: FEES: The permit fee for the construction and erection of a cable TV system shall be One Hundred Dollars (\$100.00) per mile of cable installed, or mile of strand installed, to be paid by the permittee. The length of cable to and from any residence or building from the main line shall not be calculated in the per mile cost.

The One Hundred Dollar (\$100.00) per mile fee shall be paid in advance of work performed, but may be paid in installments if work is to be performed in installments or by sections.

The fee for the blockage of a street shall be Five Dollars (\$5.00) per location per week.

10-44-5: APPLICABILITY: The provisions of this Article shall apply to the construction of any and all cable TV systems from and after the date of passage of this Article, regardless of whether or not a portion of that cable TV system has already been erected.

CHAPTER 10

BUSINESS LICENSING AND REGULATION

ARTICLE 45. UNDERTAKING ESTABLISHMENTS

SECTION

- 10-45-1: Definition
- 10-45-2: License Required; Application
- 10-45-3: Embalming
- 10-45-4: Periodic Inspections
- 10-45-5: Compliance with State and Municipal Codes

10-45-1: DEFINITION: The term "Undertakers," when used in this Article, shall mean any person engaging in the business of preparing a dead body for burial or cremation, or a funeral, or conducting, managing or being in charge of an undertaking room, store or place.

10-45-2: LICENSE REQUIRED; APPLICATION: No person shall engage in the business of an undertaking establishment without first obtaining a license therefor. Application for a license to conduct such business shall be made in conformance with Article 1 of this Chapter.

10-45-3: EMBALMING: No person other than an embalmer, to whom a certificate of registration to practice embalming, has been issued by the State of Illinois, shall embalm a dead human body, or prepare a human body dead of a contagious or infectious disease for transportation.

10-45-4: PERIODIC INSPECTIONS: The Health Officer shall periodically inspect each such establishment to determine compliance with the provisions of this Code.

10-45-5: COMPLIANCE WITH STATE AND MUNICIPAL CODES: Every person maintaining an undertaking establishment or engaging in business as an undertaker in the municipality shall maintain such establishment and conduct such business in strict compliance with all statutes of the State of Illinois and all the provisions of this Code pertaining thereto.

CHAPTER 10

BUSINESS LICENSING AND REGULATION

ARTICLE 46. VENDING MACHINES

SECTION

- 10-46-1: License Required
- 10-46-2: Application
- 10-46-3: Adulterated or Misbranded Food or Beverage
- 10-46-4: Inspection
- 10-46-5: Sanitation Requirements
- 10-46-6: Revocation Provisions

10-46-1: LICENSE REQUIRED: No person, firm or corporation who owns, leases or has a possessory interest in any premises within the municipality shall install, keep, maintain, use or permit the maintenance or use upon such premises of any vending machine, automatic vending machine, coin-operated machine, or other mechanical device requiring more than one cent (\$.01) for the activation thereof, which is used or intended to be used for the sale or distribution of any product unless the same shall have been first licensed under the provisions of this Article, and no owner of any vending machine, automatic vending machine, coin-operated machine, or other mechanical device requiring more than one cent (\$.01) for the activation thereof, which is used or intended to be used for the sale or distribution of any product, shall install same on any premises located within the municipality without first obtaining a license therefor pursuant to the provisions of this Article. This Article shall not apply, however, to cigarette vending machines, jukeboxes, amusement machines or laundry machines.

10-46-2: APPLICATION: Application for said license shall be made in conformity with the general requirements of this Chapter relating to applications and licenses. Such application shall include the following information: the name and address of owner of the premises upon which the machine is to be located for use, and the product to be sold or distributed by the machine.

10-46-3: ADULTERATED OR MISBRANDED FOOD OR BEVERAGE: It shall be unlawful for any person within the municipality to sell, offer or expose for sale through vending machines, or to have in possession with intent to sell therefrom, any food, beverage or ingredient which is adulterated or misbranded.

Samples of food, beverage or ingredient may be taken and examined by the municipality as often as may be necessary to determine freedom from adulteration or misbranding. The municipality may, on written notice to the operator, impound and forbid the sale of any

food or beverage which is adulterated or misbranded, or which it has probable cause to believe to be adulterated or misbranded. After the operator has been given an opportunity for a hearing, the municipality may cause to be removed or destroyed any food or beverage which is adulterated or misbranded; provided, however, that in the case of misbranding which can be corrected by proper labeling, such food or beverage may be released to the operator for correct labeling under the supervision of the municipality.

10-46-4: INSPECTION: The appropriate municipal officials shall inspect the servicing, maintenance and operation of vending machines dispensing readily perishable foods at least once every six (6) months. Vending machines dispensing other than readily perishable foods may be inspected as often as deemed necessary.

Municipal officers or employees, after proper identification, shall be permitted to enter at any reasonable time, upon any private or public property within the municipality where vending machines are operated, for the purpose of determining compliance with the provisions of this Article. The operator shall make provisions for the municipality to have access to the interior of all vending machines operated by him.

Whenever the municipality discovers a violation of any provision of this Article, the operator concerned shall be notified. Such notice shall (1) describe the condition found and state which section of this Article is violated by such condition; (2) provide a specific and reasonable period of time for the correction of the condition; and (3) state that an opportunity for a hearing on inspection findings will be provided, if a written request for such hearing is filed with the Clerk. Such hearing shall be in the form prescribed in this Chapter for suspensions or revocations of licenses.

10-46-5: SANITATION REQUIREMENTS:

a. Foods, beverages, and ingredients, consumer containers, intended for sale through vending machines shall be obtained from sources complying with the regulations of the municipality and with other applicable state and federal laws and regulations. Such products shall be clean and wholesome, free from spoilage, and shall be processed, prepared, handled and stored in such a manner as to be protected against contamination and adulteration. All product contact surfaces of containers and equipment shall be protected from contamination.

b. All foods, beverages and ingredients shall be stored or packaged in clean protective containers, and shall be handled, transported and vended in a sanitary manner. Wet storage of packaged products is prohibited.

c. Readily perishable foods offered for sale through vending machines shall be dispensed to the consumer in the individual original container or wrapper into which it was placed at the commissary or at the manufacturer's or processor's plant, or such products shall be dispensed into single service containers.

d. In those vending machines dispensing readily perishable foods, beverages, or ingredients in bulk, the bulk supplies of such foods, beverages or ingredients shall be transferred only to a bulk vending machine container and appurtenances which are clean and have been subjected to an approved bactericidal process.

e. Readily perishable foods or ingredients within the vending machine shall be maintained at a temperature not lower than thirty three degrees (33°) Fahrenheit, nor higher than fifty degrees (50°) Fahrenheit. Vending machines dispensing readily perishable foods shall be provided with control which ensure the maintenance of these temperatures at all times; provided, however, that an exception may be made for the actual time required to fill or otherwise service the machine and for a maximum recovery period of thirty (30) minutes following completion of filling or servicing operations. Such controls shall also place the machine in an inoperative condition until serviced by the operator, in the event of power failure or other condition, which permits the food storage compartment to attain a temperature above fifty degrees (50°) Fahrenheit, or below thirty three degrees (33°) Fahrenheit, whichever is applicable. Vending machines dispensing readily perishable food shall be provided with a thermometer which, to an accurate plus or minus two degrees (2°) Fahrenheit, indicates the air temperature of the food storage compartment.

The temperature for hot liquid foods or beverages shall be not less than one hundred fifty degrees (150°) Fahrenheit, and for frozen foods, not more than thirty two degrees (32°) Fahrenheit.

f. Milk offered for sale through vending machines shall be dispensed only in individual containers or from bulk containers into which the milk was placed at the plant.

g. Machine Location. The machine location shall be such as to minimize the potential for contamination of the product, shall be easily cleanable, and shall be kept clean. Service connections shall be such as to protect against unintentional or accidental interruption of service to the machine.

h. Unless the vending machine is sealed to the floor so as to prevent seepage underneath, or can be manually moved with ease, one or more of the following provisions shall be utilized to facilitate cleaning operations: (1) the machine shall be mounted on legs six (6) or more inches in height; or (2) the machine shall be mounted on casters or rollers; or (3) the machine shall be mounted on gliders which permit it to be easily moved.

i. Interior construction and maintenance. All interior surfaces and component parts of the vending machine shall be so designed and constructed as to permit easy cleaning, and shall be kept clean. All product contact surfaces of the machine shall be kept clean. All product contact surfaces of the machine shall be of smooth, non-toxic, corrosion resistant and relatively non-absorbent material, and shall be capable of withstanding repeated cleaning and bactericidal treatment by normal procedures. Such surfaces shall be protected against contamination.

j. Water Supply. Water used in vending machines shall be from an approved source, and shall be of safe and sanitary quality.

k. Waste Disposal. All wastes shall be properly disposed of, and pending disposition shall be kept in suitable containers so as to prevent creating a nuisance.

This section shall be deemed to have been satisfied when the following requirements are met:

1. All trash and other waste material shall be removed from the machine location as frequently as may be necessary to prevent nuisance and unsightliness, and shall be disposed of in a manner approved by the Health Officer.
2. Self-closing, leakproof, readily cleanable, plainly labeled and designated waste container or containers shall be provided in the vicinity of each machine or machines to receive used cups, cartons, wrappers, straws, closures and other single service items. Such waste containers shall not be located within the vending machine; provided that an exception may be made for those machines dispensing only packaged products with crown closures, in which case the closure receptacle may be located within the machine. Suitable racks or cases shall be provided for multi-use containers or bottles.
3. Containers shall be provided within all machines dispensing liquid products in bulk for the collection of drip, spillage, overflow, or other liquid wastes.

An automatic shutoff device shall be provided which will place the vending machine out of operation before such container overflows. Containers or surfaces on which such wastes may accumulate shall be readily removable for cleaning, shall be easily cleanable, and shall be corrosion resistant. If liquid wastes from drip, spillage or overflow, which originate within the machine are discharged into a sewerage system, the connection to the sewer shall be through an air gap.

1. Foods, beverages and ingredients and product contact surfaces of containers, equipment and supplies shall be protected from contamination while in transit to machine location. Readily perishable foods and beverages while in transit shall be maintained at a temperature not higher than fifty degrees (50°) Fahrenheit.

10-46-6: REVOCATION PROVISIONS: Application for such license shall be made by the owner or lessee of such machine or mechanical device to the municipality upon forms to be provided by the municipality, and such application shall correctly describe the premises upon which the machine will be used, the product to be sold or distributed by the machine, the owner of the premises upon which the machine is to be used, and the owner of the machine or lessee of the machine; provided, however, that in the event the owner or lessee of the machine is a corporation, the application shall be executed by an authorized officer of the corporation and shall correctly state the names and addresses of all of the directors thereof, and the names and addresses of all stockholders owning more than twenty percent (20%) of the outstanding shares of stock of such corporation. Such application shall be under oath and any misrepresentation thereon shall constitute a violation of this Article and shall subject the person making such application to the penalties provided for in this Code.
