Cottonwood Public Library Newsletter

Jan/Feb/Mar 2018, Volume 23, Issue 4

## Thank you, Vanessa!

On February 2nd, 2018, Library Manager Vanessa Ward will be retiring from the Cottonwood Public Library. In the twenty-two years since Vanessa was hired, a lot has changed in the world, and certainly in the library, as well.

Starting as a part-time temporary conversion aid in 1993, Vanessa then became a full-time cataloger. Next she became the Library Coordinator and began supervising the Adult Services department. In addition to her regular duties, in 2009 she also became a supervisor of the Youth Services department. In 2011 she was hired as the Library Manager.

Vanessa's tenure is marked by her energy, determination, and character. Her willingness to listen to the suggestions of patrons, and to respond to their requests whenever possible, created much of what the library is today. Walk in to the Cottonwood Public Library and you will see that this library is truly "not just about books." With Vanessa's leadership and the energy and willingness of her staff, our library has become a major heartbeat in this community. A perfect example of this is the wealth of programs the library has to offer.

Some of the programs now in Youth Services include Paws to Read, which allows children to practice reading to therapy dogs in a non-judgmental environment. Pre-School Story Time, Teen Library Council, Tiny Tot Time, Family Craft Hour, and Family Movies (with free popcorn!) are just a few examples of how our library is helping the youth of our community. Adult Service programs include a book discussion group, two writing groups, Great Conversations, the Seed Library, free Spanish classes, OverDrive eBook and Tablet Time training, and more.

In addition, Vanessa has put a new face on the more than twenty-year-old building. The parking lot was resurfaced and two parking spots were added. A media drop-box, document station, and new water fountains were installed. Technological infrastructure was upgraded. Timeworn carpeting was replaced. Interior lighting was improved. Original chairs were repaired and re-upholstered. A major roof leak was repaired and cracked windows were replaced. An extensive reorganization of the Youth Services layout was accomplished. Finally, the circulation

# Easy Gardening, Done Dirt-Cheap!

Has the dreary winter landscape got you thinking about Spring? We invite you to join novice and seasoned gardeners getting together to talk GREEN! Have you ever wanted to garden here in the high-desert but didn't know where to start? Need to save money on your food bill? Want an inexpensive rewarding hobby? For need or for pleasure, this class outlines how anyone can garden and do it practically for free by starting small and creating sustainable systems that do most of the work for you. Learn how to do a little work year-round at your own pace, with delicious rewards. After making small investments of money and time you could be eating healthier, organic food from your very own yard!

Topics to be discussed include beneficial bugs, composting, GMOs, herbs, heirloom seeds, livestock, mulch, organic vs. chemical, plants, seed banks, soil, trees, water conservation, weeds, worms, xeriscape, zombie foods and more.

Also to be covered will be gardening techniques including aquaponics, bio-intensive, container, hugelkultur, hydroponics, perennials, permaculture, raised-bed, square-foot, vertical, and year-round gardening.

Local resources for gardeners and where to get the things you need for free or very little cost will also be discussed.

The class is led by Deborah Crincoli, who teaches gardening to kids at Yavapai College's summer program. "After over two decades gardening in the Verde Valley, I count many more successes than failures these days, but I never stop trying new things!" Crincoli says. She received her B.A. in Education locally at Yavapai College and Northern Arizona University and loves to create, hike, camp, and of course, grow. This free class will take place on **Saturday, January 13 from 11 a.m. to 1 p.m. in Library Meeting Room B.**

(continued from page 1) desk was refurbished and a beautiful new matching reference desk was acquired. None of these things could have happened without Vanessa's influence and guidance.

In 2014 Vanessa won the City of Cottonwood Employee of the Year Award. One employee credits Vanessa as being a great mentor, a "rock" for the library for twenty-two years, and she has always been open and responsive to suggestions of staff and patrons alike. Another staff member mentions that it was obvious that she cared greatly about our library and its role in the community as evidenced by how hard she worked to improve and transform it. Vanessa maintains that much was possible due to the willingness of the staff to share new ideas, conceive new programs, and offer suggestions and solutions. And if they didn't altogether agree with her ideas, they did not hesitate to point out potential problems. Without the grants submitted by Vanessa and other library staff, there would not have been funding for the envisioned new programs and equipment that keeps our library on pace with the ever-evolving library environment. She applauds the Bookmarks Friends of the Library group for making many new library projects financially possible.

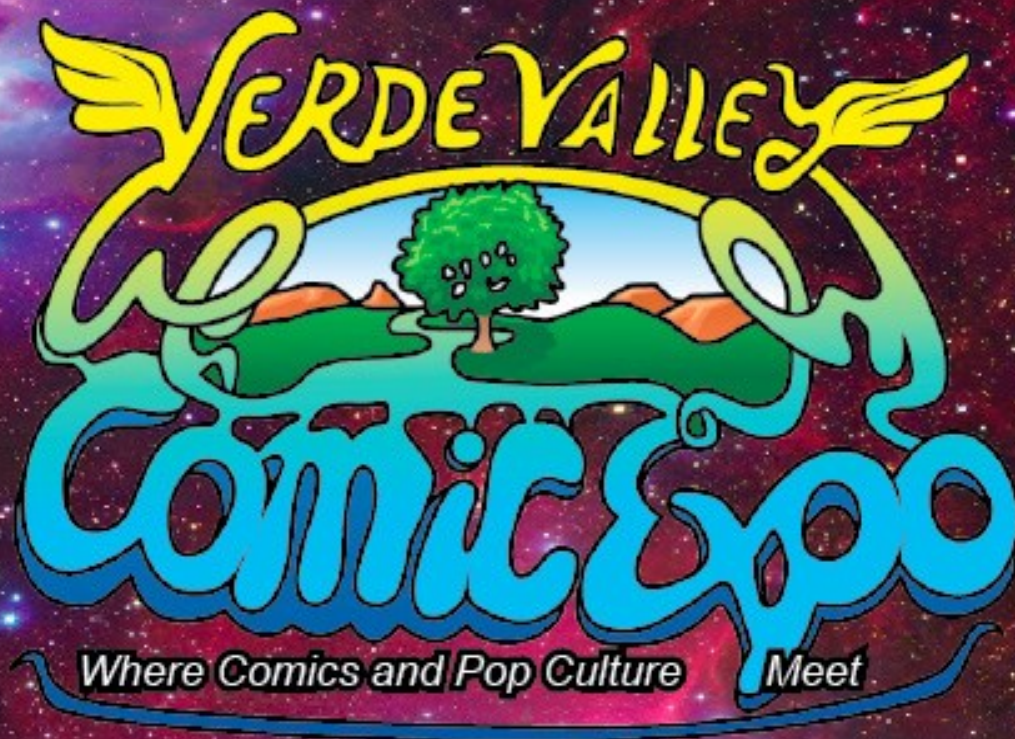

Vanessa's goal was to give our community what they requested, to bring people into the library, to create a safe and comfortable place for all, and ultimately, to make it "the best deal in town." Congratulations and THANK YOU VANESSA! You have certainly met your goal. See page 13 for Vanessa's retirement party info.

The Library at Alexandria and mountains of Mayan Texts have been destroyed. Countless layers of civilizations have eroded with the passage of time. Legends and myths and fragments of oral traditions may hold some of the only clues we have left.

Many of us can sense that archaeological sites, sacred sites and power places are much older than we have been led to believe. Worldwide, new sites and hidden histories reflecting millions of years of human existence continue to be uncovered.

- ▶ Who are we – what is our true lineage?
- ▶ What has caused the mass amnesia of the species?
- ▶ When did we first inhabit the earth?
- ▶ Where did we come from?
- ▶ Why is it important to discover our true history and accomplishments?

Today, each of us with an inclination to do so can explore the past for our own enrichment and that of creating a just, sustainable and thriving society. Integrative Archaeology offers insights and ways to explore our rich, abundant past.

#### **ROSEMARKED BY LIVIA BLACKBURN**

"*Rosemarked* is a thrilling new Young Adult Fantasy novel people of all ages will love. The world the author creates is rich and detailed and will interest fans of *Game of Thrones* and other fantasy epics. The book begins with Zivah, a young healer girl in her village of Dara; and Dineas, a boy who is part of a vicious group of rebels fighting the powerful Amparan rule. After Zivah and a group of Amparan soldiers posted in her village are hit with the deadly Rose Plague, she begins to see that, though it was not Dara's fault the soldiers became infected, there will be harsh consequences for them regardless. Zivah and Dineas must work together to infiltrate Sehmar City and find a way to gain an advantage against the Amparan army to save their future. Both characters have their own demons to work through. For Zivah, she is an infected healer who cannot heal herself and though the Rose Plague didn't kill her immediately, she will surely die in a few short years. For Dineas, he was tortured for nearly a year at the hand of Amparan soldiers and thirsts for revenge. In the end, they must put these problems aside in the wake of a royal conspiracy." - Rose B.

Quick, fun read." - Kyle S.

This year we welcome the Wonder Factory of Flagstaff from 4 p.m. to 5 p.m. The Wonder Factory's goal is to lead the next generation of young minds into their place as the thinkers, the makers, and the creators of the future through hands-on interactions with STEAM-related technology. Kids can learn about wind power by building parachutes for a wind tunnel that will be set up.

STEAM kits will be on hand for kids to try out and we'll also have a Leopard Gecko for kids to see and learn about. There will also be a Makerspace where kids can get creative building things from a variety of materials. A family LEGO Build will also be available, bring in the family and build a structure with the library's LEGO collection.

The Paws to Read program is an additional service we offer for kids to practice reading. Kids can read to a dog! Currently we have three handlers and therapy dogs who volunteer once per month. # Meet Your Inner Captain

*Uncover Your Core Values and Meet Your Inner Captain*

- **What are your core values?**  
 You are invited to a workshop where we will discover our underlying values that guide our behavior and decisions.
- **Are you on a journey of self-discovery?**  
 Many of us stroll through life, unaware of what drives us, unconsciously making decisions that may, or may not, be in alignment with our soul's purpose.
- **What is your Life's Purpose?**  
 Experience a Guided Visualization with your Inner Captain. Your Inner Captain knows your values, and your life's purpose, and wants you to be living a life that unleashes your full potential.

Life Coach Rodger Bates was a former U.S. Navy Submarine sailor from 1975 through 1982. He then graduated from Penn State University with a degree in Electrical Engineering. For the next 14 years, he was employed by the Knolls Atomic Power Laboratory to train Naval Officers in the concepts of command and control, requisite for supervising operation of a submarine nuclear propulsion plant. In 2004, he resigned his position to start a litigation funding business called Excalibur Funding Programs.

In 2014 he became interested in Life Coaching, and graduated in 2016 from the Co-Active Coach Training program at the Coaches Training Institute in San Rafael, California.

# Taxes in Retirement

## Understand the Potential Impact Taxes

## Have On Your Retirement Income

Retirement is rated one of life's most stressful events. Do you have a Retirement Tax Strategy?

Join us for an informational workshop covering Taxes In Retirement on **Thursday, February 1 from 11:00 a.m. to 12:00 p.m. in Library Meeting Room B.**

Many aspects of your everyday life begin to change as you prepare for retirement. One of the biggest changes you are faced with involves your finances. The paycheck you have become accustomed to receiving is no longer coming in. Instead, it is now up to you to decide from which accounts you will take income.

Your paycheck may have stopped, but taxes continue. It is important to know and understand the potential tax implications of selecting which assets from which you draw your retirement income.

If you would like more information on how taxes can impact your retirement income sources, THIS seminar is for you.

Attend this workshop  
and learn about:

- The changing rules for a retiring generation of baby boomers
- Common misconceptions about taxes in retirement
- Possible tools and strategies available to retirees to help develop a retirement tax strategy
- Strategies to help protect yourself against the taxation of your Social Security income
- How rising taxes may affect your retirement cash flow

**Registration is required, please call 928-634-7559 to sign up.**
