Cottonwood Public Library Newsletter

October/November/December 2018, Volume 23, Issue 4

## Bittersweet Goodbye!

I would like to thank all of you for making my job here as the Library Supervisor such a pleasure! It is with heartfelt emotions that I will be retiring on December 4th, 2018 to accomplish some new endeavors.

You, the patrons, need to know how much each and every one of you have made a difference in my life. I have enjoyed getting to know all of you and will miss your insights, your humor and the life lessons you have taught me. I have been honored to be able to help some of you on the computers, to find books, or to research some of the most interesting subjects out there. Know that when we do not see you for a while, you are in our hearts, and we miss you.

To the staff, I want to also thank each and every one of you for the many years of support, ideas, comradery and dedication to this library. And last but not least, I cannot say enough about the volunteers here! You make it what it is! Every week, sometimes for years on end, you come in and help us out in so many ways that enable the staff to accomplish our goals. I have tasted the best baked goodies ever, learned origami (very little), and feel honored to

have met such a great number of giving people. Know that we couldn't do it without your support!

As I walk into a new unknown, full of new grandbabies and travel, I would like to say that the library will continue to be an integral part of my life. I hope that everyone knows the staff here has wonderful new ideas that will transition into a better, more productive place for our community. Please continue to put your comments and suggestions in the suggestion box, as staff and the Library Advisory Board views each and every one. We have always strived, and will continue to treat each idea with the uniqueness they suggest.

# How to Reverse Heart Disease

With Dr. Richard Ruhling

It has been 28 years since US News Magazine's cover story on How to Reverse Heart Disease featured Dr. Dean Ornish, says Dr. Richard Ruhling. A retired MD, Ruhling will show Cleveland Clinic Cardiologist, Dr. Esselstyn's DVD revealing how a bypass operation isn't needed if people only eat better.

Ruhling will tell of his own experience with a New York executive whose three cardiologists felt it was too risky for a bypass surgery. The executive was 65 and taking 12 pills a day, but he was getting worse. One of his cardiologists stated that if he quit the medicine, he would die. But he quit anyway and in six weeks with a better diet, began playing tennis and climbing hills again. He outlived his cardiologist to 92 years of age.

Ruhling will present this information and more on **Saturday, October 20 at 12 p.m.** This presentation is the second in a Total Health series at the library.

Musicians and music fans alike will enjoy *Talking Heads* front man David Byrne's fascinating take on how the evolution of technology has shaped the way music is made, listened to and distributed.

~Kyle S.

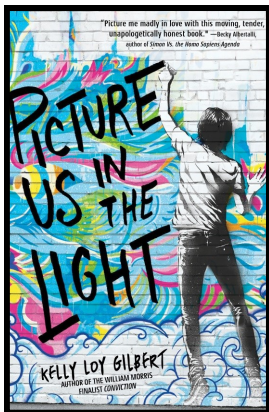

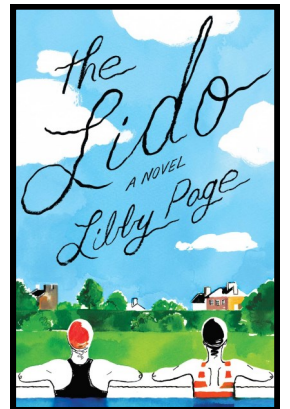

## **Ready Player One**, by Ernest Cline (film by Steven Spielberg)

At once wildly original and stuffed with irresistible nostalgia, **READY PLAYER ONE** is a spectacularly genre-busting, ambitious, and charming debut - part quest novel, part love story, and part virtual space opera set in a universe where spell-slinging mages battle giant Japanese robots, entire planets are inspired by *Blade Runner*, and flying DeLoreans achieve light speed.

~Jeff C.

## **The Lido**, by Libby Page

A story based in Brixton, London where the main character, Rosemary Peterson, has lived all her life. The Lido is the outdoor pool where she has come to swim every day and where she met her now-deceased husband. She crosses paths with, and eventually meets, a 20-something, introvert, journalist, Kate. They strike up a friendship, based on their love for swimming at the Lido, and become the catalysts for saving the Lido from the developers.

## **Picture Us in the Light**, by Kelly Loy Gilbert

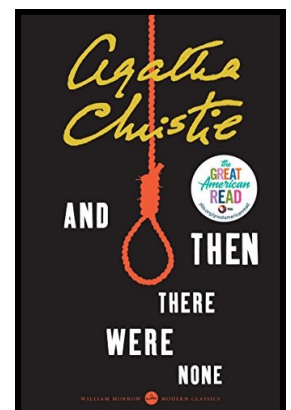

Don't read this unless you want to be pulled deeply into the fabric of Danny Cheng's life, experience his profound and sometimes deeply painful relationships, be drawn into an alarming family mystery, and see what this young man will do when faced with having to be true to his heart. **You've been warned!**

~Dina D.

## **And Then There Were None**, by Agatha Christie

Ten strangers, apparently with little in common, are lured to an island mansion off the coast of Devon by the mysterious U.N. Owen. Over dinner, a record begins to play, and the voice of an unseen host accuses each person of hiding a guilty secret. That evening, former reckless driver Tony Marston is found murdered by a deadly dose of cyanide. The tension escalates as the survivors realize the killer is not only among them but is preparing to strike again... and again...
