

Gale Free Library, in partnership with the Tewksbury Public Library, presents

Nutcrackers: A Colorful History

You may never have given those funny painted statues much thought but the history of nutcrackers involves the development of tools from the Stone Age to the Industrial Age. Their story encompasses the political changes of Communist-era Germany, a Russian ballet and American G.I.s. These are all elements in the history of the charming, colorful creations we enjoy today.

This program will be led by art historian Mary Woodward, who serves as a guide at several Historic New England properties, and has previously served as Public Programs Coordinator and Educator at the Concord Museum.
