BOURNE COMMUNITY INVITED TO 1ST LIBRARY FEASIBILITY STUDY ENGAGEMENT MEETING

Bourne residents, library patrons and stakeholders are invited to participate in the first public engagement meeting for the **Library Feasibility Study: Collections & Connections**. This important event is part of a broader public participation plan designed to engage as many community members as possible.

Date: Monday, January 27, 2025

Time: 5:00 PM

Location: Bourne Public Library, 19 Sandwich Road, Bourne Village

This feasibility study, conducted in collaboration with Johnson-Roberts Associates, is designed to ensure that the library meets the needs of our growing and diverse community for years to come.

The study is a vital step in planning for the library's future, addressing current needs while considering long-term goals. The study's objective is to explore potential concepts and produce a plan moving forward that incorporates community feedback in collaboration with data collected through current facility assessments. With community collaboration at its heart, the project aims to ensure the Jonathan Bourne Public Library continues to thrive as a cornerstone of learning, culture, and connection in Bourne.

The upcoming meeting provides an opportunity for community members to learn more about the study and share their insights and ideas. Whether you're a frequent library patron, resident, student, local business owner, or simply passionate about the future of our community, your voice matters.

"Libraries are vital community hubs," said Library Trustee Chair Kathy Fox Alfano. "We're excited to hear from residents about how we can create a space that inspires learning, fosters connections, and serves Bourne's needs for decades to come."

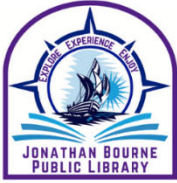

Attendees are encouraged to RSVP online by scanning the QR code on promotional materials or visiting www.cognitoforms.com/TownOfBourne/LibraryFeasibilityPublicMtg1
