SENIOR CLASS ADVISORS

Dear Class of 2017,

Congratulations on your many accomplishments. The years you have spent at Passaic Valley have hopefully given you a strong foundation and a lifetime of fond memories. As your class advisers, we have watched you all grow into mature young adults and it has been wonderful observing your transformation over the past four years.

During your first week as freshmen at Passaic Valley, we urged you to take advantage of all the opportunities school would offer. As you embark on this new chapter of your lives, we hope that you take advantage of every opportunity that presents itself. As Voltaire said, "Present opportunities are not to be neglected; they rarely visit us twice."

We'll leave you with the wise words of Mr. George Feeny from Boy Meets World, "Believe in yourselves. Dream. Try. Do good." We wish you all the best, Class of 2017!

Sincerely,

Ms. Hillary Bresson and Mr. Kevin Haimowitz

A Message
to the Class of 2017
from Our Principal,
Mr. Rotella

Dear PV Graduates,

Over seventy-five classes have preceded you through the doors of Passaic Valley High School. The ideals and principles which you have acquired while here will follow you into your future. You are the men and women of whom Passaic Valley will be proud, for you have shined forth in your lives the very best of the PV tradition. It is the sincere desire of the administration and teachers of Passaic Valley that all its students be not only knowers, but also be ready and willing to transfer what they know into intelligent action and action that will advance them and others toward success.

Magnificent promise dominates your future. The life of a high school student is likened to the making of a journey. Your high school career may be considered a life in miniature. It has marked the beginning of independence, the addition of responsibilities, the choice of lifetime careers, the widening of perspectives, and the deepening of character. Your high school years have been crucial in your life's journey, leading to your high school diploma, which is truly a commencement. It is my hope that each PV graduate may develop a vision for a lifetime of genuine growth and achievement.

Now that you are joining the Passaic Valley alumni family, we hope you will keep in touch with us. Let us know how you are doing, and remember that you are always welcome back to visit.

My best wishes for success go out to all of you!

Sincerely,
Ray Rotella

A Letter to the
Class of 2017 from
Our Superintendent,
Dr. Cardillo

Dear Graduates,

The time has come for you to receive your high school diploma and bid farewell to Passaic Valley. In September, I spoke to you about how this year would fly, and I suggested that you should get involved, make new friends and set goals for a great senior year. I am happy that many of you took this advice and have created fond memories.

As individuals, you have unique accomplishments; however, as a class you have also accomplished so much. Striving to reach your own potential is important, but students reaching out to join other students in class projects, school activities, and athletics are what make Passaic Valley a special place to attend high school. Moving on you will now be required to work with people and for people.

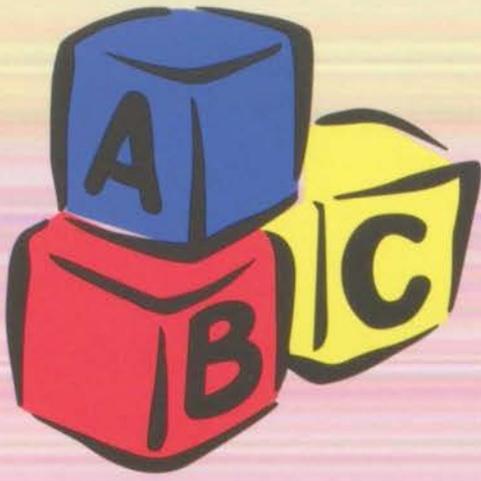

Sometimes this will be in teams, and most certainly in one on one situations. You will soon see life is about human interaction and about the ability to work and get along with others.

I encourage each of you to continue to be open to all of what life has to offer.

Wishing you all the best.

Sincerely,
Dr. JoAnn Cardillo

Cathryn Cole:

We couldn't be more proud of
the person you have become.
You are beautiful inside and
out. You are smart,
thoughtful, kind, and genuine.
Your future is so bright and
you are loved more than you
know!

Michael DeMusso:

Michael,
We closed our eyes for but a
moment and suddenly a man
stood where a boy used to be.
You have given us so many
reasons to be proud of the
young man you have become; the
proudest moment for us is
telling others that you are
our son.

Now the time has come to end
this chapter in your life and
move on to bigger and better
things. Remember this day, the
sense of pride and
accomplishment you take away
from it. Use that to move
towards your next big goal.
Congratulations on this
special day. As your parents,
we could not be any happier or
prouder of you at this moment!
We love you!

Mom & Dad

Matthew Basile:

We are so amazed at what
an incredible young man,
student, athlete, and
most important-person
you have become. Best of
luck, always know we are
behind you in all that
you do.

We love you...
Mom, Dad & Mia

Michael Cyman:

Congratulations on a job
well done. We are
enormously proud of all
that you achieved. Keep
moving "FORWARD," and
follow your dreams to
accomplish what you have
set for your future. May
God continue to bless
you and direct your
path.

We love you dearly
Mom, Dad & Natalie

Sarah Hackett:

It seems like just
yesterday we brought our
baby girl home. We were
filled with love and
excitement! Now seeing
the wonderful young
woman you have become
has made us so very
proud and excited for
what the future will
hold for you!

We love you!
Mom, Dad & Markie

Alexandra Juliano:

Congratulations on your high school graduation. Words cannot express how proud we are of you and all your accomplishments. We wish you all the best as you begin college as your journey to a successful future. Follow your dreams and good things will come.

We love you!
Mom, Dad, & Nicolette

Robert Rada:

Dear Bobby,
As parents this milestone in your life is bittersweet. You are leaving your childhood years behind you and becoming an adult as you move on to college. We know you will find your way in this crazy world; we have no doubt. You have always excelled at everything you put your mind to. You went from an 8th grade high school band member to captain your senior year. Always stay true to yourself as the strong, kind, caring young man that you are. You are so loved by all your family and we are honored to call you our son. (our baby)

All our love XOXO,
Mom & Dad

U.S. PRESIDENTIAL ELECTION & DEBATES

In the lead up to Donald Trump's win of the 2016 U.S. Presidential Election, 84 million people watched the first 2016 Presidential Debate between Donald Trump and Hillary Clinton, 66.5 million watched the second and 71.6 million the third, say the Nielsen ratings. That's two out of the three most watched Presidential debates on record.

DUMPING ICY WATER ON ALS

In the summer of 2014 the "Ice Bucket Challenge" raised \$115 million in eight weeks. These donations, that helped fund more research, have paid off. The specific gene responsible for ALS has been identified, which brings scientists one step closer to discovering a cure.

FAKE NEWS FLOOD

In the wake of the 2016 U.S. Presidential election, Americans became aware of a growing problem with the news media. Many political news stories widely shared on social media websites were discovered to be fake. Whether the spread of such stories influenced the political opinion in any significant way is still under investigation.

NATURAL DISASTERS

Every year has its share of reminders that humans are still at the mercy of the forces of nature, and this year was no different. In August, Louisiana suffered a devastating flood, the result of more than 31 inches of rainfall in 15 hours. It was the worst natural disaster since Hurricane Sandy. In September, Hurricane Matthew moved through the Caribbean, eventually traveling along the Eastern coastal region of the U.S. In all, the Hurricane resulted in 49 deaths and around \$6 billion in damage. In November, Winter Storm Argos let fall 54 inches of snow in Central New York, and in Binghamton, NY it became the largest snowstorm since 1905.

ZIKA THREAT REMAINS

The Zika virus, transmitted to humans by mosquitoes, is linked to birth defects, putting pregnant women most at risk for contraction. The virus first became known to U.S. citizens from its widely publicized outbreak in Brazil, which gave rise to a flood of travel warnings. Although the World Health Organization declared that Zika is no longer a global emergency, the threat has spread to U.S. soil, both to Florida and Texas, prompting the Center for Disease Control to issue an advisory against travel for pregnant women to certain counties in these states.

CRISIS IN ALEPPO

Over the last two decades, the Battle for Aleppo has grown out of the Syrian Civil war. Rebel forces in conflict with Syrian Forces advanced on Aleppo in February 2012, turning the city into an increasingly embattled warzone. Since then, civilian deaths have reached into the tens of thousands. In December 2016, a ceasefire was declared between the rebel groups and government-backed forces, and the evacuation of the rebels and their families followed.

BOB DYLAN WINS NOBEL PRIZE

The Nobel Prize committee awarded Bob Dylan the Nobel Prize for Literature, becoming the first musician to win the prize. Traditionally reserved for creators of written works, the prize was given to Dylan for "having created new poetic expressions within the great American song tradition."

YAHOO! SUFFERS HISTORIC SECURITY BREACH

BRITAIN VOTES TO LEAVE EU

On June 23, more than 30 million British citizens voted on a referendum on whether Britain should leave the European Union (EU). 52% voted for leaving. The implications of Britain's decision to leave the EU are far reaching, both economically and socially. So far, experts have no easy answers for the how, why, or even when this will play out.

THE BABIES ACT

President Obama signed into law a bill that requires government buildings to install baby changing stations not only in women's restrooms, but in men's restrooms as well. The bill, called the BABIES Act, received bipartisan support, and was the result of recognizing the growing place of men in the basic duties of child care.

RECORD HIGH SCHOOL GRADUATION RATE

The end of the 2015-2016 school year marked a high point for educators, students and parents throughout the U.S., when more students successfully graduated than in any previous year. It was the fifth record-setting year in a row, raising the high school graduation rate to an all-time high of 84%.

MALL OF AMERICA GOES DARK ON THANKSGIVING

The Mall of America, the U.S.'s biggest indoor mall, decided to keep its doors closed on Thanksgiving. This meant turning consumers away on the eve of Black Friday, the biggest consumer spending day of the year. The move came at no small cost, but benefited the many employees, allowing them to spend the holiday with friends and family.

DAKOTA ACCESS PIPELINE

The Dakota Access Pipeline is a proposed project to install a pipeline between North Dakota and Illinois. The pipeline would transport 570,000 barrels of crude oil a day harvested from North Dakota's Bakken Shale. The project has come under controversy, with protesters objecting that the pipeline endangers sections of the Missouri River, a primary source of drinking water of the Native American Sioux Tribe. Responding to safety concerns, the Department of the Army declared that it will discover and use an alternative pipeline route. Removing much uncertainty around the future of the project, President Trump, in the week after taking office, issued a Presidential Memorandum effectively permitting the completion of pipeline.

A GREAT YEAR... A FEW GREAT LOSSES

Among the triumphs and joy of the year, we also lost a few of humanity's best. Among them, actor Carrie Fisher; musician Prince; athlete Muhammad Ali; and astronaut John Glenn.

HEART-TO-HEART

By growing heart muscle cells in the lab from stem cells donated by a healthy macaque monkey, scientists have successfully regenerated the damaged heart of another macaque monkey. Scientists involved in the study think human trials are likely in a few years, and could pave the way to curing many forms of heart disease.

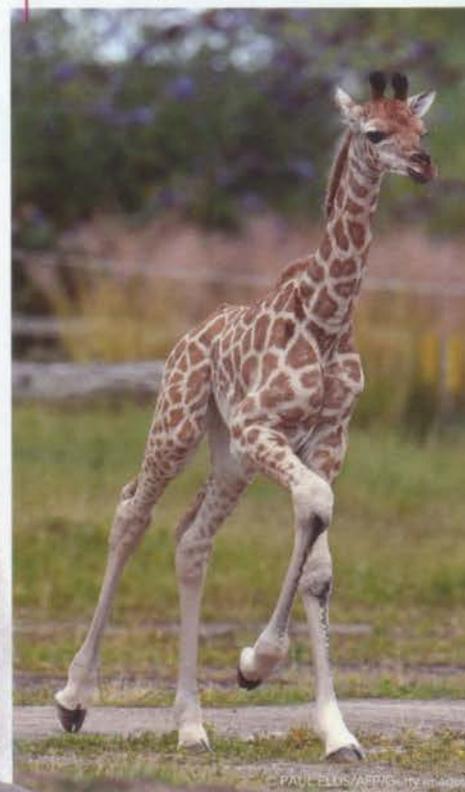

HEALTHY, WOOLY AND WISE

In 1996, Dolly the Sheep started out her life unlike most sheep, in a test tube as a clone. She became a scientific media phenomenon, and potential evidence that cloning methods worked. Six years later she was put to rest after tumors were found in her lung. Her premature death left in its wake questions about whether clones could live healthy lives. Now, 20 years later, it looks like the question has been answered. Daisy, Diana, Debbie, and Denise are sheep cloned from the same cell line as Dolly, but unlike her, have aged into their senior years, as healthy as any non-cloned sheep.

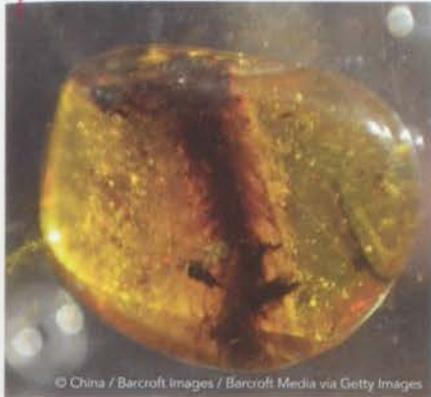

NEW GIRAFFE SPECIES SPOTTED

A new study analyzing the DNA of 190 giraffes across Africa revealed an unexpected fact. What was formerly thought to be a single species of giraffe turns out to be not one, but four species: the southern giraffe; the Masai giraffe; the reticulated giraffe, and the northern giraffe.

FEATHERS FROM THE PREHISTORIC PAST

The feathers of a dinosaur's tail were discovered preserved in a 99-million-year-old piece of amber, marking the first time dinosaur material has been found preserved in such a way. Lida Xing, a geoscientist from China University, found the specimen for sale at an amber market in Myanmar.

GOLDBLOCKS PLANET DISCOVERED

Proxima B could be a potentially Earth-like, habitable, and life-containing planet located in the vicinity of Proxima Centauri. At 24.94 trillion miles away, this makes it the nearest star to our own solar system. Proxima B is in a "Goldilocks" region that allows for the possibility of both life and water in its liquid state. In other words, it's not so distant from its own sun that it's too cold, but not so close that it's too hot.

LOOSENING PARALYSIS' GRIP

Advancing scientific research is helping those afflicted with paralysis. A man, once paralyzed from the chest down, is now able to play a computerized guitar with the aid of a computer chip implanted in his brain. Another, a quadriplegic, is now able to manipulate a robotic hand and feel pressure from its fingertips.

CRISPR GENE EDITING

CRISPR, a new tool developed by scientists is paving the way to a world in which we can cure any disease, prevent any infections, and design organisms from the ground up. CRISPR genome editing technology, which allows for the precise and direct manipulation of specific genes, has the potential to transform the field of biology and the power of medicine.

HUMANS ON MARS BY 2030?

Working toward bringing humans to Mars, NASA is developing ways to keep humans alive on their journey to the Red Planet, their stay, and then the return trip back to Earth. One such method may be the use of a newly discovered Martian ice deposit, which contains as much water as Lake Superior, the largest freshwater lake on Earth.

HEY, I'M (STILL) DRIVING HERE!

Tesla and Uber unleashed the first wave of self-driving cars onto U.S. roadways. While some Tesla models include all the onboard technology to fully pilot themselves, regulations restrict them from taking full control. For now, the self-automated vehicles are limited to managing their own speed, parking themselves, and changing lanes.

HOME, SMART HOME

Google and Amazon widened their reach into consumer's homes this year. Amazon's tech, called "Echo," and Google's, "Google Home," are low-profile, speaker-like devices, waiting to supply information or carry out commands. For example, users can order the delivery of goods and services, schedule events, ask questions, dim lights, or have music or video played on connected devices.

SAMSUNG NOTABLE PHONE RECALL

Users of Samsung's Note 7 smartphone began reporting explosions of the device while charging. This prompted the South Korean company to suspend sales and urge owners to exchange the device for non-faulty units. An official recall was issued in September by the U.S. Consumer Product Safety Commission. The device was eventually discontinued, and the U.S. Federal Aviation Commission and Department of Transportation deemed it a hazard and banned it from all flights. The recall and discontinuation affected over 2 million devices and cost Samsung an estimated \$17 billion in revenue.

NO MORE WAITING IN LINE

Amazon, known for its online retail and web services, opened a brick-and-mortar grocery store to revolutionize the "good, old-fashioned" shopping experience. Its Seattle-based "Amazon Go" test store enables shoppers to enter the store, pick up items and then walk out, all without waiting in a line or interacting with a cashier. Everything is tracked, charged, and handled automatically through an app on your smartphone.

WHERE IS REALITY HEADED?

Two new innovated, related technologies, "mixed or augmented reality" and "virtual reality," are starting to grab public attention. Both use "head mounted displays"—basically computer displays strapped to users' heads like glasses or goggles—to project information onto real world objects or allow for total immersion into digital space. The equipment is still costly but becoming cheaper, with companies from Microsoft to Sony creating products aimed at the everyday consumer.

DRONE DELIVERIES TAKE FLIGHT

Amazon ramped up its delivery technologies by testing its first shipment by drone. The delivery, placed online, took 13 minutes from the point of purchase to the drone's arrival at the doorstep. The capability is still limited to a small number of customers, but Amazon hopes someday to bring the technology to a majority of their customers.

THE POWER OF THE SUN

After 550 hours of flight and 25,000 miles of travel, Solar Impulse 2 touched down, completing the world's first solar-powered flight around the globe. The aircraft embarked from Abu Dhabi and 18 months later completed its round-trip. While the aircraft itself could have made the flight without stopping, the pilots needed to land every month to rest up before resuming. Future expectations for the aircraft is to fly solar powered around the globe on autopilot.

CHAMPIONS

U.S. DOMINATES RIO OLYMPICS

U.S. Olympians took home more gold from the 2016 Olympics than any other nation. 46 gold medals in all. That's nearly twice than second-spot Great Britain's 27 gold medals. Among the many national highlights, Michael Phelps became the most decorated Olympian of all time, Ashton Eaton won gold in men's decathlon, and the U.S. Women's Basketball team won gold. U.S. gymnast Simone Biles won 4 gold medals and secured her spot as the most decorated gymnast of all time.

SPARKS TRIUMPH OVER LYNX IN WNBA FINALS

The LA Sparks beat the Minnesota Lynx in the WNBA Finals 3 games to 1. The team's first championship win since 2002 was, however, not without controversy. In a postgame review of late-game footage, WNBA officials determined that a late-game shot by Nneka Ogwumike "should not have counted due to a shot-clock violation, and that the referees improperly failed to review the play under the instant replay rules." Despite this commentary, the win officially stands, with the victory going to the Sparks.

CLEVELAND CAV'S AMAZING COMEBACK

The Cleveland Cavaliers won the NBA Finals, beating the Golden State Warriors 93-87 in game 7 of the NBA Finals. The win ended a 52-year drought for the Cavs, and also marked the team as the first to come back in the Finals from being down 3-1.

WIMBLEDON 2016

Serena Williams claimed the Wimbledon title for the 7th time in 14 years. The win marked Williams' 22nd major singles title. It also tied her with Steffi Graf for the Open-Era Grand Slam record.

THE CUBS WIN!

Winning their first championship title since 1908, the Chicago Cubs won the World Series. The 108-year drought came to an end when the Cubs beat the Cleveland Indians 8 - 7 in game 7. The two opposing teams represented the longest winless streaks in their respective leagues, with the Indians failing to win the World Series since 1948. In all, the final game pulled in 40 million viewers, the most since the final game of the 1991 World Series.

HARRY POTTER ON STAGE

One of the biggest franchises of the last two decades, J.K. Rowling's Harry Potter, broke from the page and the screen this year and onto the stage. The play "Harry Potter and the Cursed Child" opened in London's Palace Theater, and transported audiences into the world of an adult Harry Potter. Although the play can be seen by relatively few, the screenplay was published in book form over the summer, and was subsequently added to the bookshelves of millions of fans.

GOTTA' CATCH 'EM ALL

Pokemon Go took the top spot for most-played mobile app game in history, clocking in over 500 million downloads and, at its peak in July, 21 million daily active users. That's more than Snapchat, Twitter, Instagram or Facebook. This trend quickly played out with 79% of players shelving the game by September.

FLIPPING OUT

The trick, known simply as "water bottle flipping," is one of the biggest crazes of the year. Take a partially filled bottle of water, hold it from its mouth, flip it through the air, and get it to stick its landing upright. As thousands of kids can attest, the trick requires finesse, control and tons of practice. The original water bottle flipping video that started it all racked up 6.6 million views in under five months.

THE YOUTUBE GENERATION

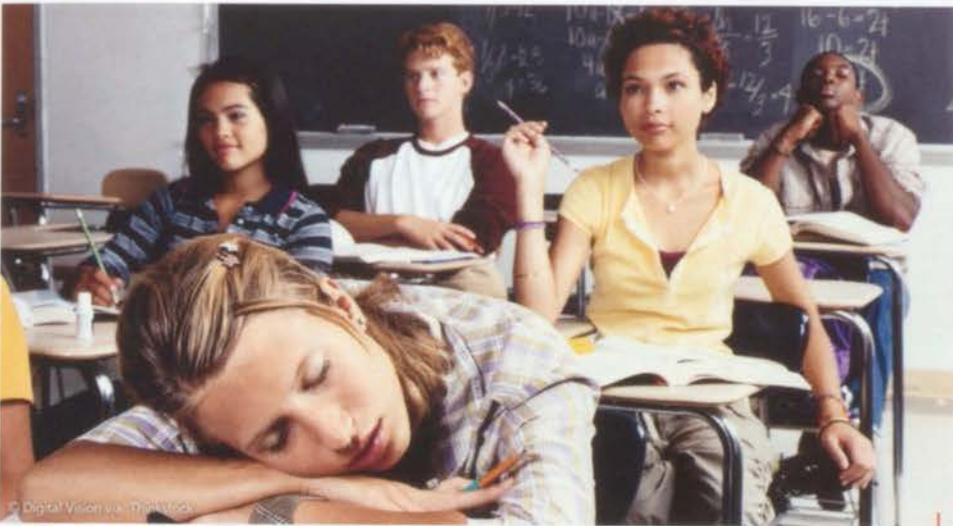

Traditional channel surfing is becoming a thing of the past, as the next generation of viewers find new ways to kick back and relax. Teens are now watching 2.5 times more YouTube than cable TV. This, while streaming services like Netflix continue to garner wider use, and once-exclusive cable networks like HBO begin their own online streaming platforms in an attempt to recapture audiences.

MEMES, MOST SEARCHED INTERNET TERM

According to Google Trends, which tracks the popularity of terms people search for on Google, "memes" is now the number one most searched word. And what exactly is a meme? It's an image with a catchy phrase or a humorous video. Memes aren't always merely silly though. Some are political, and some have important social messages. In any case, memes are everywhere these days, and it looks like they are here to stay.

WORLD GETS BUSY STAYING STILL

"The Mannequin Challenge," one of the biggest viral video phenomena of the year, drew participants from schools to stadiums to workplaces with its simple idea--freeze time and film it. Whether the situation was common or strange, in a large group or small, it meant everyone kept completely still, "mannequin-like," sometimes in elaborate poses, while a cameraperson roamed through the scene and filmed it. The resulting videos, often set to music, were the thing to watch this year.

EVERYTHING OLD IS NEW AGAIN

1980s and 1990s fashion is back. Walk the halls of any school and you'll see high-tops, overalls, birkenstocks, shirts slung around the waist, high-waisted jeans, flannels, backpacks, crop tops, and hoop earrings. Metallic lipstick, too, is getting its fair share of attention. It might not be a throwback, but it seems to pair well with the wider trend.
