

**READS-to-Go**  
**Collection Development Policy**

Selection Policy

The READS-to-Go Committee maintains a list of sponsored kits and approved titles for future kit sponsorship. Additions must be available in paperback (the large print copy may be in hardcover). The book should present opportunities for discussion. Any candidate for addition to the list will be reviewed by the READS-to-Go Committee before being added.

Kit titles are offered to a sponsoring library by the READS-to-Go Committee. A sponsor may decline a title that has been offered. Libraries may request a title that is not on the pre-approved list provided by the READS-to-Go Committee, which will then be reviewed. All titles are vetted by the committee before assignment, and the committee may choose to decline a requested title.

Deaccession Policy

Kits with the lowest level of circulation will be reviewed at the final meeting of the year. New titles may be offered to those libraries hosting one of the lowest circulating kits. Otherwise, a case-by-case assessment will be conducted upon request of the host library.
