**Straits Road Culvert Project
Scheduled to begin Oct. 17th**

Please be advised that as a result of Warrant Article #8 approval at the March of 2011 Town Meeting, an existing culvert on Straits Road will be replaced and has been scheduled. This culvert has repeatedly failed in heavy rain and flooding events. 75% of this project will be funded by a State of NH Hazard Mitigation Grant. The project location is 828 feet east of the Forest Pond Road intersection with Straits Road, in the vicinity of 899 Straits Road.

This project is scheduled to start Monday, October 17, 2011 and is estimated to be a 3-week construction project, with approximately a 5-day period where there will be **NO** thru traffic. All traffic must use alternative routes, traveling either east or west on Straits Road, to avoid the project area. Our Police and Fire/EMS Departments have been notified of the closure plan and with the support of other local emergency service departments through Mutual Aid will be prepared to respond to any emergencies. [Click here to view the Construction Plan 1](#), [click here for Construction Plan 2](#) - or view them at the town office during their normal hours. We will post on the town web site the actual dates of closure and when the road will reopen.

We appreciate your patience and cooperation during this project. If you have questions please call the Selectmen's Office at 744-3559 or the Public Works Director at 744-8025.
