DENSITY DEVELOPMENT, REZONING & THE LOCAL COMPREHENSIVE PLAN

Some Councilors characterize citizens' observations of repeated consistent statements from Town Hall about its desire for density zoning changes enabled by sewers as

"Hyperbole" (from Osterville)
"Stray Quotes" (from Osterville)
"A Misinformation Train" (from Centerville)

Let's look at the public record.

SINGLE FAMILY ZONING IS IN THE BULL'S EYE

IN TOWN HALL WORDS

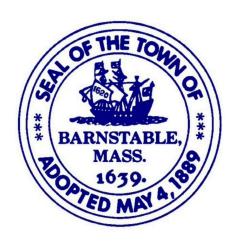

Single-family residential zoning is

- a "burden" on the community*

INTOWN HALL WORDS

ADU proposal is a "babystep" to "pushing back" on the "legacy" of single-family residential zoning*

- Town proposal mirrored realtor/builder/HAC proposal to permit non-resident investors to build "investor duplexes by right" - eliminating single-family zoning without calling it that
- Town Hall asked developer if Town ADU proposal (now owner occupancy in ADU) got "close" to multi-family by right?
- When Council required one unit to be owned occupied, commercial interests & some Councilors that want "investor duplexes by right" committed publicly to revisiting residency restrictions

"Current zoning is broken"

And the CCC has a plan on how it thinks zoning in your Village should be fixed.

THE BARRIER TO CHANGING ZONING TO INCREASE DENSITY IS THE LACK OF SEWER INFRASTRUCTURE

Downtown Hyannis is sewered. Zoning changes to increase density are pending (delay has been quorum due to Council financial interest conflicts).

A coincidence that Town Hall is inviting wind project developers to run infrastructure through business districts, contrary to wind developer's criteria to avoid business centers, traffic and densely developed residential areas, and strong community sentiment in Osterville?

DENSITY ZONING, AKA, FORM BASED ZONING

Density zoning proposal in downtown Hyannis

- Zoning based on building form (not use)
- Increase building density and height
- Reduce the amount of parking developers must provide per bedroom (theory: live-work-play, as if the Cape is the South End of Boston...)

In Town Hall's Words: "What the use is inside is not dictated by zoning.... you could construct a 3-story building and you could put 6 large high-end apartments in there or 15 one-bedroom apartments in there......density is up to the developer and really dictated by parking. ... there is less restrictions and it will be by-right so there is no uncertainty to it Committee, February 18, 2020

How Town Hall said it will assume community support for density zoning in Hyannis

In Town Hall words

I. Staff: ...to understand the preferences of the community as far as density, building mass, building design, building styles...then take those preferences, turn them into zoning that we would assume would be acceptable to the community. Turn it into by-right zoning...

2. Committee member: When someone stands up at a town meeting or in any public forum and says I don't like that, we don't like that, we at least have an answer.

We polled the community and this is what they said.

3. Staff: We went through a really big outreach effort and this is what the majority of people do prefer....We are going to take these preferences and we are going to move them into zoning.

Old sterile grey boxy single-family house with blinds drawn, a shrub, flagstones

Warmly lit, "golden hour" photo of multi-family with porches, sidewalks

2. Do you think a building of this **scale** would be a good fit within the study area:

O Definitely a good fit

- Probably not a good fit
- Could be a good fit Definitely not a good fit

Why, or why not?

nk a building of this **scale** would be a good fit within the study area:

ood fit

Probably not a good fit

od fit

O Definitely not a good fit

Like asking which do you prefer to eat?

Or

The "Really Big Outreach" that shows what, in Town Hall's words, the "majority of people do prefer" by way of density zoning?

Zoning, opportunities says priority

TOWN HALL HAS REPEATEDLY STATED ITS INTENT TO MOVE DENSITY ZONING TO "COMMUNITY ACTIVITY CENTERS"

LIKE OSTERVILLE

The following slides share words by Town Hall, over the years, saying so directly.

A Town zoning move to density in Cape Cod Commission-designated 'Community Activity Centers' would allow the Town LCP to conform to the CCC Regional Policy Plan and be certified.

Conformance is not required by law.

The Town can set its own vision and zoning preferences.

2019

INTOWN HALL WORDS

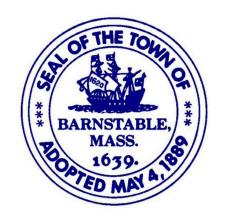

....project is focused right now in the Growth Incentive Zone...a portion of downtown Hyannis. That's the focus of this area however our goal has always been to be able to replicate this in other areas"

"That would be our goal, we'd say, ok absolutely, now let's replicate this in the village center of Marstons Mills, in the village center of Osterville and Barnstable, we'll move it."

2021

INTOWN HALL WORDS

"

This is a more modernized approach to zoning...has a lot of components that could be well-replicated in other locations...as well as the approach itself to form-based zoning...could be very effective in our other village centers...if we can find other opportunities to bring these modernized tools to other places in Barnstable I think it would be beneficial to our overall regulatory scheme and predictability of development town-wide

IN TOWN HALL WORDS

We'll make available a document we worked on with the Cape Cod Commission, a form-based code framework that talks about why this tool are a...good tool, a good option for regulating development in our Community Activity Centers on Cape Cod.*

(Yes, Osterville is a "Community Activity Center")

Cape Cod Commission categorizes Barnstable Village, Hyannis, Osterville as 'Community Activity Centers'

It says 'Community Activity Centers' should have zoning changes:

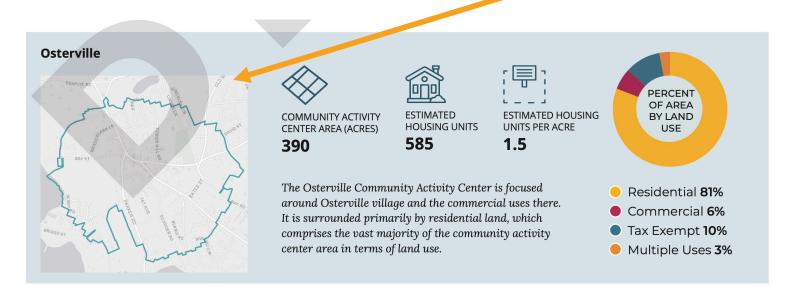

- Zoning to allow higher density and multi-family housing
- Inclusionary zoning by laws
- Dimensional regulations that foster pedestrian activity and follow established development patterns

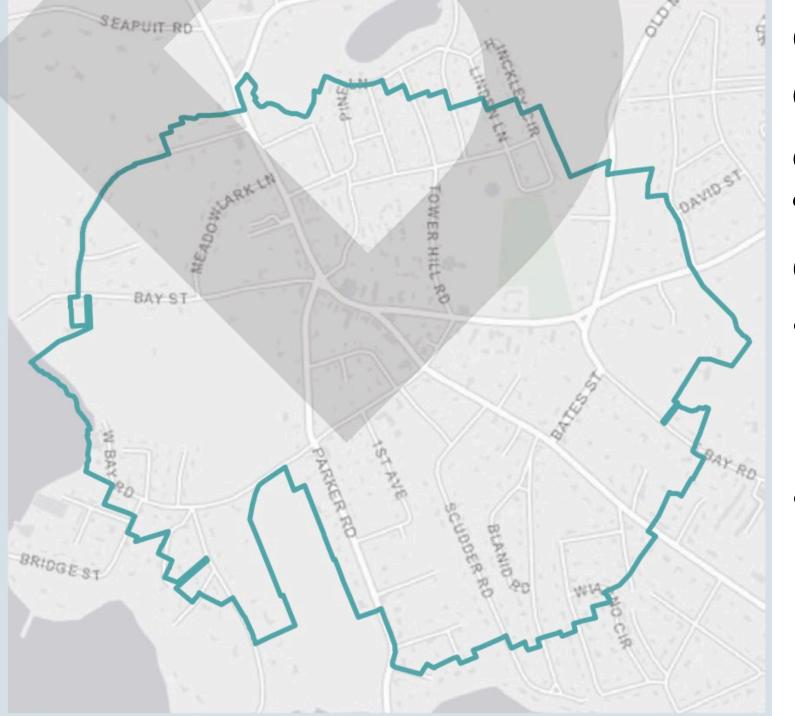

From the CCC and its Vision for Osterville

Community Activity Centers

Community Activity Centers are areas with a concentration of business activity, community activity, and a compact built environment that may be suitable for additional housing and a mix of uses . The vision for these areas is to accommodate these uses in a walkable, vibrant area, preserve historic buildings, and to provide diverse services, shopping, recreation, civic spaces, housing, and job opportunities, with adequate infrastructure and pedestrian amenities to support development. Seventeen Community Activity Centers have been identified across the region. Barnstable has three identified community activity centers, one in each of the villages of Barnstable, Hyannis, and Osterville.

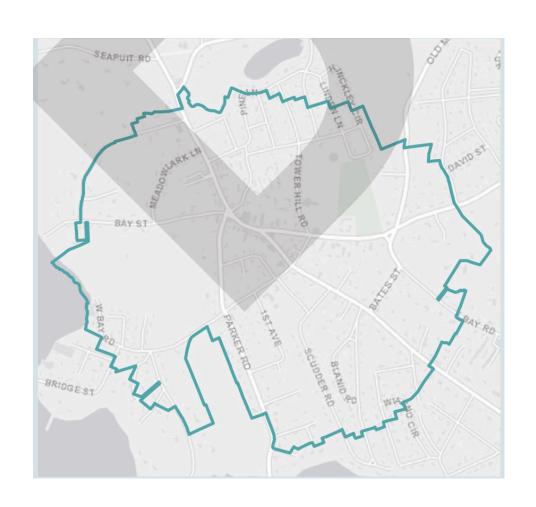

CCC Map of
Osterville's CCCdesignated 390-acre
"Community Activity
Center" where:

- the CCC
 encourages density
 zoning
- Town Hall says
 density/form-based
 zoning is a good
 tool

Do we really want to leave what goes into that footprint up to a developer?

Consider recently, the Town allowed a developer put a warehouse on Main Street in Osterville on land zoned for retail and residential use (BA and RC) when what the community really needs is housing.

p.s. this also means the town would need to allow any property in the Osterville business district (zone BA) to be used as a warehouse...

DOES BARNSTABLE HAVE TO CONFORM TO THE CCC REGIONAL PLAN, ITS VISION OR DENSITY ZONING PREFERENCES FOR YOUR VILLAGE AS A MATTER OF LAW? NO.

BARNSTABLE CAN SET ITS OWN VISION, ITS OWN DEVELOPMENT MANAGEMENT COURSE, ITS OWN ZONING

10. What does Commission LCP certification obtain for the town?

Towns with Commission-certified LCPs will be given priority consideration for planning and technical assistance from the CCC. The technical assistance may help with a variety of topics and issues, as well as helping towns implement actions identified in the Targeted Action Plan in their LCP. Additionally, a Commission-certified LCP will afford communities the ability to enter into development agreements, to assess impact fees pursuant to the Cape Cod Commission Act, and offers a planning framework for proposed designations such as Chapter H and Growth Incentive Zones.

Does CCC certification provide value to you?

Town Hall on Village Plans: Abandon Village Plans process in prior LCPs due to sewer plan. For the first time, Village plan changes will be an *outcome*, not an input.

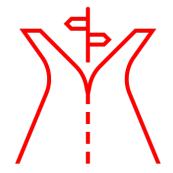

"We're going in a different direction"*

* Planning Director reply to resident question at Zoning Subcommittee on Village Planning March 2021

"...Given ...the objective to align this process with the town wide Comprehensive Wastewater Management Plan and the impacts of that plan necessitate that we zoom out from the villages and really look at the impacts of the implications of that infrastructure town wide. ...If there are identified a need to update those village plans as a whole or bring additional planning processes forward really around any topic specific to each village I anticipate that being part of the recommendation of our Local Comprehensive Plan and an outcome of that strategic and targeted action."*

Question: Is it any surprise that Town Hall (before any community or Council discussion) decided to depart from past practice and *not* have Village Plans as part of the LCP this time around?

Answer: Unless Osterville's Village Plan chose to change to density zoning consistent with the CCC Regional Plan, a village plan would only frustrate the LCP and the Town's interest in conforming to the CCC's vision and density for CCC-designated 'Community Activity Centers'. Of course there were no Village Plans...

IT'S REAL. LOCAL RESIDENTS NEED HELP.

WE CAN DO BETTER, AND WITHOUT WIPING OUT SINGLE-FAMILY ZONING, OR TURNING DENSITY DECISIONS OVER TO DEVELOPERS.

As always, if we got anything wrong, we welcome corrections with citations (not empty assertions about misinformation or stray quotes)
