

How does it work?

It's simple! Come to the Children's Room to register for the program and get your first reading log. When you finish your first 100 books, bring in your log, we'll give you an achievement sticker and put your name on our milestone wall!

Every 100 books you read will earn you an achievement sticker, with some other special prizes along the way! After you read 200 books you'll receive your very own library book bag with our special *NH 1,000 Books Before Kindergarten* logo.

Who can participate?

Children from birth through age 5 are invited to take on the challenge! The challenge must be completed before the child turns 6 or enters kindergarten, whichever occurs first. You and your little one(s) can read a thousand different books or the same book a thousand times! What matters is that you are reading together.

All children who complete the program in a particular calendar year will be awarded a certificate of completion at that year's 1,000 Books Before Kindergarten party.
