

# Thank you for accepting this challenge to read 23 books in 2023!

For some this may be easy and for others, a bit more difficult. But, whichever category you fall into, this challenge will be fun for all!

We have a beautifully designed mini poster created by staff member Lily K. so you can keep track of the book titles as you finish them.

Simply record each book title on one of the book spines on the poster (and list the title and author on the back of the poster as well). Feel free to color your poster to really make it your own!

To encourage you to keep at it, the library will send you emails throughout the year with reading suggestions to keep you inspired!

We will also submit names of all those who have completed and handed in posters into a raffle drawing for gift baskets at the end of the program! Copies of your completed posters will be accepted, so you can keep a record of the books read this year!
