

Dremel 3000 Accessory Bits

Image of Bit	Bit #	Used for...
	191 High Speed Engraving Cutter	Ideal for shaping, hollowing, grooving; for soft metals, plastics and woods; ideal for use on carved surfaces
	84922, Silicon Carbide Grind Wheel	Designed to grind and etch stone, glass, ceramics, porcelain, gemstones, non-ferrous metals.
	932, Grinding Stone	Ideal for sharpening, deburring and extended general purpose grinding on most materials including stainless steel. Specially design for conic surfaces. For use on metals, welded joints, rivets and rust.
	953, Grinding Stone	Ideal for sharpening, deburring and extended general purpose grinding on most materials including stainless steel. Specially design for conic surfaces. For use on metals, welded joints, rivets and rust.
	426, Reinforced Cut-Off Wheel	Ideal for cutting, grooving and trimming all kinds of metal.
	561, Multi-Purpose Cutting Bit	High-speed cutter for wood, plastic, fiberglass, drywall, laminate and aluminum and vinyl siding.
	428, Carbon Steel Brush	Ideal for cleaning and removing rust and corrosion from brass, copper or other soft ferrous metals. Can also be used for artistic effect on coarse-grained woo
	414, Felt Polishing Wheel, 1/2"	Ideal for general polishing on most ferrous metals, stones, glass and ceramics. Can be used with 421 polishing compound. Use with mandrel 401.

Dremel 3000 Accessory Bits

	<p>421, Polishing Compound</p>	<p>Removes dull, oxidized film and/or light surface imperfections. Use with felt accessory.</p>
	<p>429, Felt Polishing Wheel, 1"</p>	<p>Ideal for general polishing on most ferrous metals, stones, glass and ceramics. Use with mandrel 401.</p>
	<p>407, 60 Coarse Grit Sanding Drum, 1/2"</p>	<p>Ideal for rough shaping and smoothing, on wood or fiberglass.</p>
	<p>408, 60 Coarse Grit Sanding Band, 1/2"</p>	<p>Ideal for rough shaping and smoothing, on wood or fiberglass. Can also rough shape rubber surfaces.</p>
	<p>430, 60 Coarse Grit Sanding Drum, 1/4"</p>	<p>Ideal for rough shaping and smoothing, on wood or fiberglass. Can also rough shape rubber surfaces. Perfect for removing rust from metal surfaces.</p>
	<p>431, 60 Coarse Grit Sanding Band, 1/4"</p>	<p>Ideal for rough shaping and smoothing, on wood or fiberglass. . Perfect for removing rust from metal surfaces. Can also be used for removing water stains from wood.</p>
	<p>432, 120 Fine Grit Sanding Band, 1/2"</p>	<p>For shaping and smoothing wood and fiberglass. Removes rust from metal surfaces. Shapes rubber surfaces. Can also be used for removing water stains from wood.</p>
	<p>445, 240 Extra Fine Grit Sanding Band, 1/2"</p>	<p>Ideal for rough shaping and smoothing, on wood or fiberglass. . Perfect for removing rust from metal surfaces. Perfect for shaping rubber surfaces.</p>
	<p>438, 120 Fine Grit Sanding Band, 1/4"</p>	<p>Ideal for rough shaping and smoothing, on wood or fiberglass. . Perfect for removing rust from metal surfaces. Perfect for shaping rubber surfaces. Can also be used for removing water stains from wood.</p>

Dremel 3000 Accessory Bits

	<p>446, 240 Extra Fine Grit Sanding Band, 1/4"</p>	<p>Ideal for rough shaping and smoothing, on wood or fiberglass. . Perfect for removing rust from metal surfaces. Can also be used to shape rubber surfaces.</p>
	<p>401, Mandrel</p>	<p>Mandrel, for holding polishing bits and accessories, specifically with 414 and 429 bits.</p>
	<p>402, Rotary Tool Mandrel</p>	<p>A shank with a threaded head primarily to hold and use cut-off wheels. Use with bit 426.</p>
	<p>415, Dressing Stone</p>	<p>For restoring grinding stone.</p>
