## Appendix E (Recommended Staffing Levels)

## Example

- 1. The library's jurisdictional population is 8,500.
- 2. The library wishes to achieve the "growing" level.
- 3. The library's population places it in the 5,000–9,999 population range. The "base" for this range is 2 FTE.
- 4. The number of additional FTEs needed to reach the "growing" level is .5 per 1,000 population. Multiply 8.5 (the library's jurisdictional population of 8,500 divided by 1,000) by .5 to get the number of additional FTEs: 4.25.
- 5. Add this number (4.25 FTE) to the base (2 FTE). To reach the "growing" level, the library will need a staff of 6.25 FTE.

Note: The "base" is not a level. It is a number to be used in the calculation. For the purposes of this document, an FTE works 37.5 hours per week exclusive of any meal breaks of a half hour or more but including all other breaks.

\*The minimum hours a library should be open per week is 15, according to *Illinois Administrative Code* [23 Ill. Adm. Code 3030.110]; these standards recommend 25 in Chapter 4 (Access).
