Dear Students:

I have really enjoyed my year here at Tecumseh Middle School. You kids have taught me a lot! I have learned that Middle School students are fun, energetic, and enthusiastic. You also are at an age where you care deeply for your friends. I hope you continue being supportive of each other. Help each other to do the right thing.

Many of you are discovering things about yourselves such as interests and talents. Those discoveries will very likely lead to many of your future studies and careers. Remember the comedian we had at the Middle School Assembly? He decided when he was in Middle School that he wanted to be a comedian. He began taking risks, that is participating in activities, trying things out that led him to his career.

A special good bye to our 8th grade students. We'll miss you! Good luck in high school! I hope all Middle School students have a great summer! Be safe and make good choices!

Sincerely,
Mrs. Mills

STORY OF 1997 TO 1998

A dense collage of numerous small photographs of students and staff members, likely from a yearbook, arranged in a grid-like fashion. The photos show various scenes of school life, including students in classrooms, sports uniforms, and social settings. The collage is titled "STORY OF 1997 TO 1998" at the top. The images are cut out and pasted together, creating a busy, overlapping visual. Notable elements include a student in a light blue shirt and tie, a student in a red shirt, a student in a grey sweatshirt with "ROSE BOWL" text, a student in a Santa hat, and a student in a blue and white striped shirt. The overall theme is a collection of memories from the 1997-1998 school year.
