Dear Students,

Coming back to the Tecumseh Public School system has been a most enjoyable experience for both my family and me. I have found the students to be as much fun to work with as I did when I was the high school assistant principal from 1976-1983.

It is also a pleasure to now work with my second generation of Tecumseh students. As one matures in his job, one appreciates the opportunity to develop relationships with Tecumseh families and staff members. That has been afforded to me because present middle school pupils are the offspring of students I worked with in the 70's and 80's.

Your principal,
Mr. McAaran
