Tecumseh Indians

In Memory of Tami Strickrodt

She loved her job, her friends, her life, and most of all her family. When she was diagnosed with breast cancer three years ago she fought it with everything she had and lived life to the fullest; working when she could, visiting with friends and family, and appreciating everyday she had.

Joni Spiegel

Tami was part of our lunch-bunch. It was her humor that livened-up our break, made us laugh and relax. Even when she was so very sick, she kept our spirits up.

The second thing I remember best about Tami was her love of and loyalty to her students. Even those - especially those - who challenged her as a teacher, she loved without reservation seeing all the potential and good within them. I felt Tami was a uniquely gifted teacher. We were blessed to have her here at Tecumseh Middle School with us.

Trish Williamson

Tami cared about her students and could fairly discipline them, but most of all she loved them. We laughed a lot while sharing stories about how our day had gone. She became a very good friend of mine; I came to love her as a true friend.

Kathy Novak

Four years ago Tami was simply the teacher I worked with. In the three years we knew each other she became one of my dearest friends. We shared lots of laughter, good times, hard times and many prayers. I will miss my friend Tami for the rest of my life.

Lori Mortimer

Tami Strickrodt
Dedicated, helpful too
She was always there for you
Arriving early every day
This upbeat person had her say
Tough situations she was dealt
But our support was what she felt
She pushed her students to succeed
She cared so much that they believed
She gave them chances every day
No grumpy frown darkened her way
Her laugh we do remember most
Contagious and fun and full of hope
Better things we all did wish
She is the teacher sorely missed
Our memories are strong and true
Tami Strickrodt, we do miss you!
Jill Adams

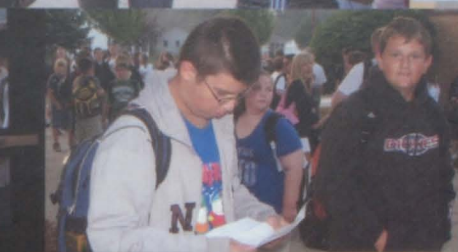

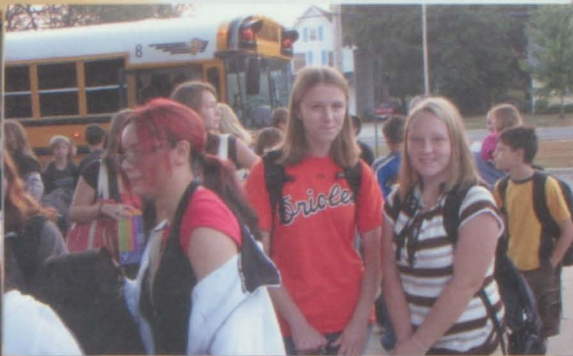

I began my career at Tecumseh Middle School working with Tami. I was hired as a long term substitute to cover the overload of Tami's special education classroom. I graduated college with an English major and physical education minor. I knew nothing about special education. However, it didn't take me long to be educated. Tami welcomed me into her class and shared everything she had, including her knowledge and love for students. Shared many ideas and much time together. Tami was a great person and a wonderful teacher. She is and will continue to be missed.

7TH AND 8TH GRADE

A photograph of three young women sitting side-by-side, all wearing black cat paw gloves. The woman on the left is smiling and has her hands raised. The woman in the middle is making a playful, slightly pouting face. The woman on the right is also smiling and has her hands raised. They are all wearing casual clothing.

6D ICE CREAM PARTY 6TH GRADE ACTIVITIES 6TH GRADE CIRCUIT BOARDS

Team 6D recieved a thank you from the Tecumseh Service Club for their Christmas donation of new books to other kids. They also donated money to TSC to be used as it was needed. Everyone was so proud of 6D that they threw them an ice cream party the day before Valentines Day to celebrate their thoughtfulness.

Every year in 6th grade, the students do a science project...
CIRCUIT BOARDS!

During this activity, the sixth graders were using many different tools to make their circuit board. It took everyone a lot of time and effort to make them, and the circuit boards turned out very nice, neat, and clean.

This is very serious buisness...

Just let me itch my nose really quick here...

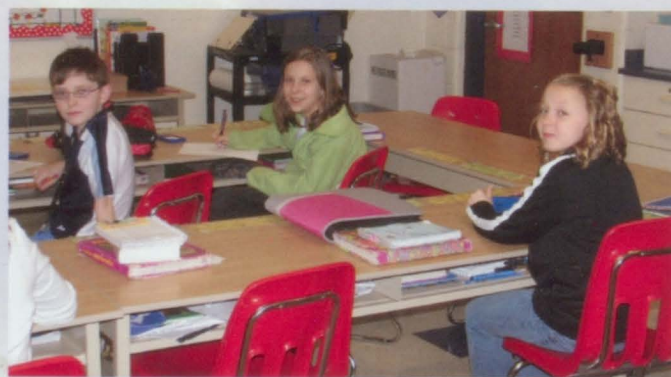

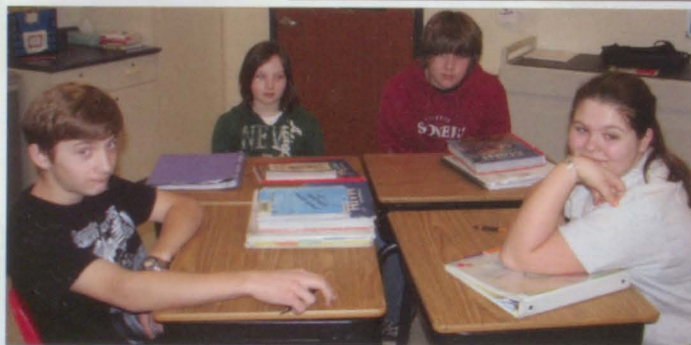

6TH GRADE PAPER CHAINS

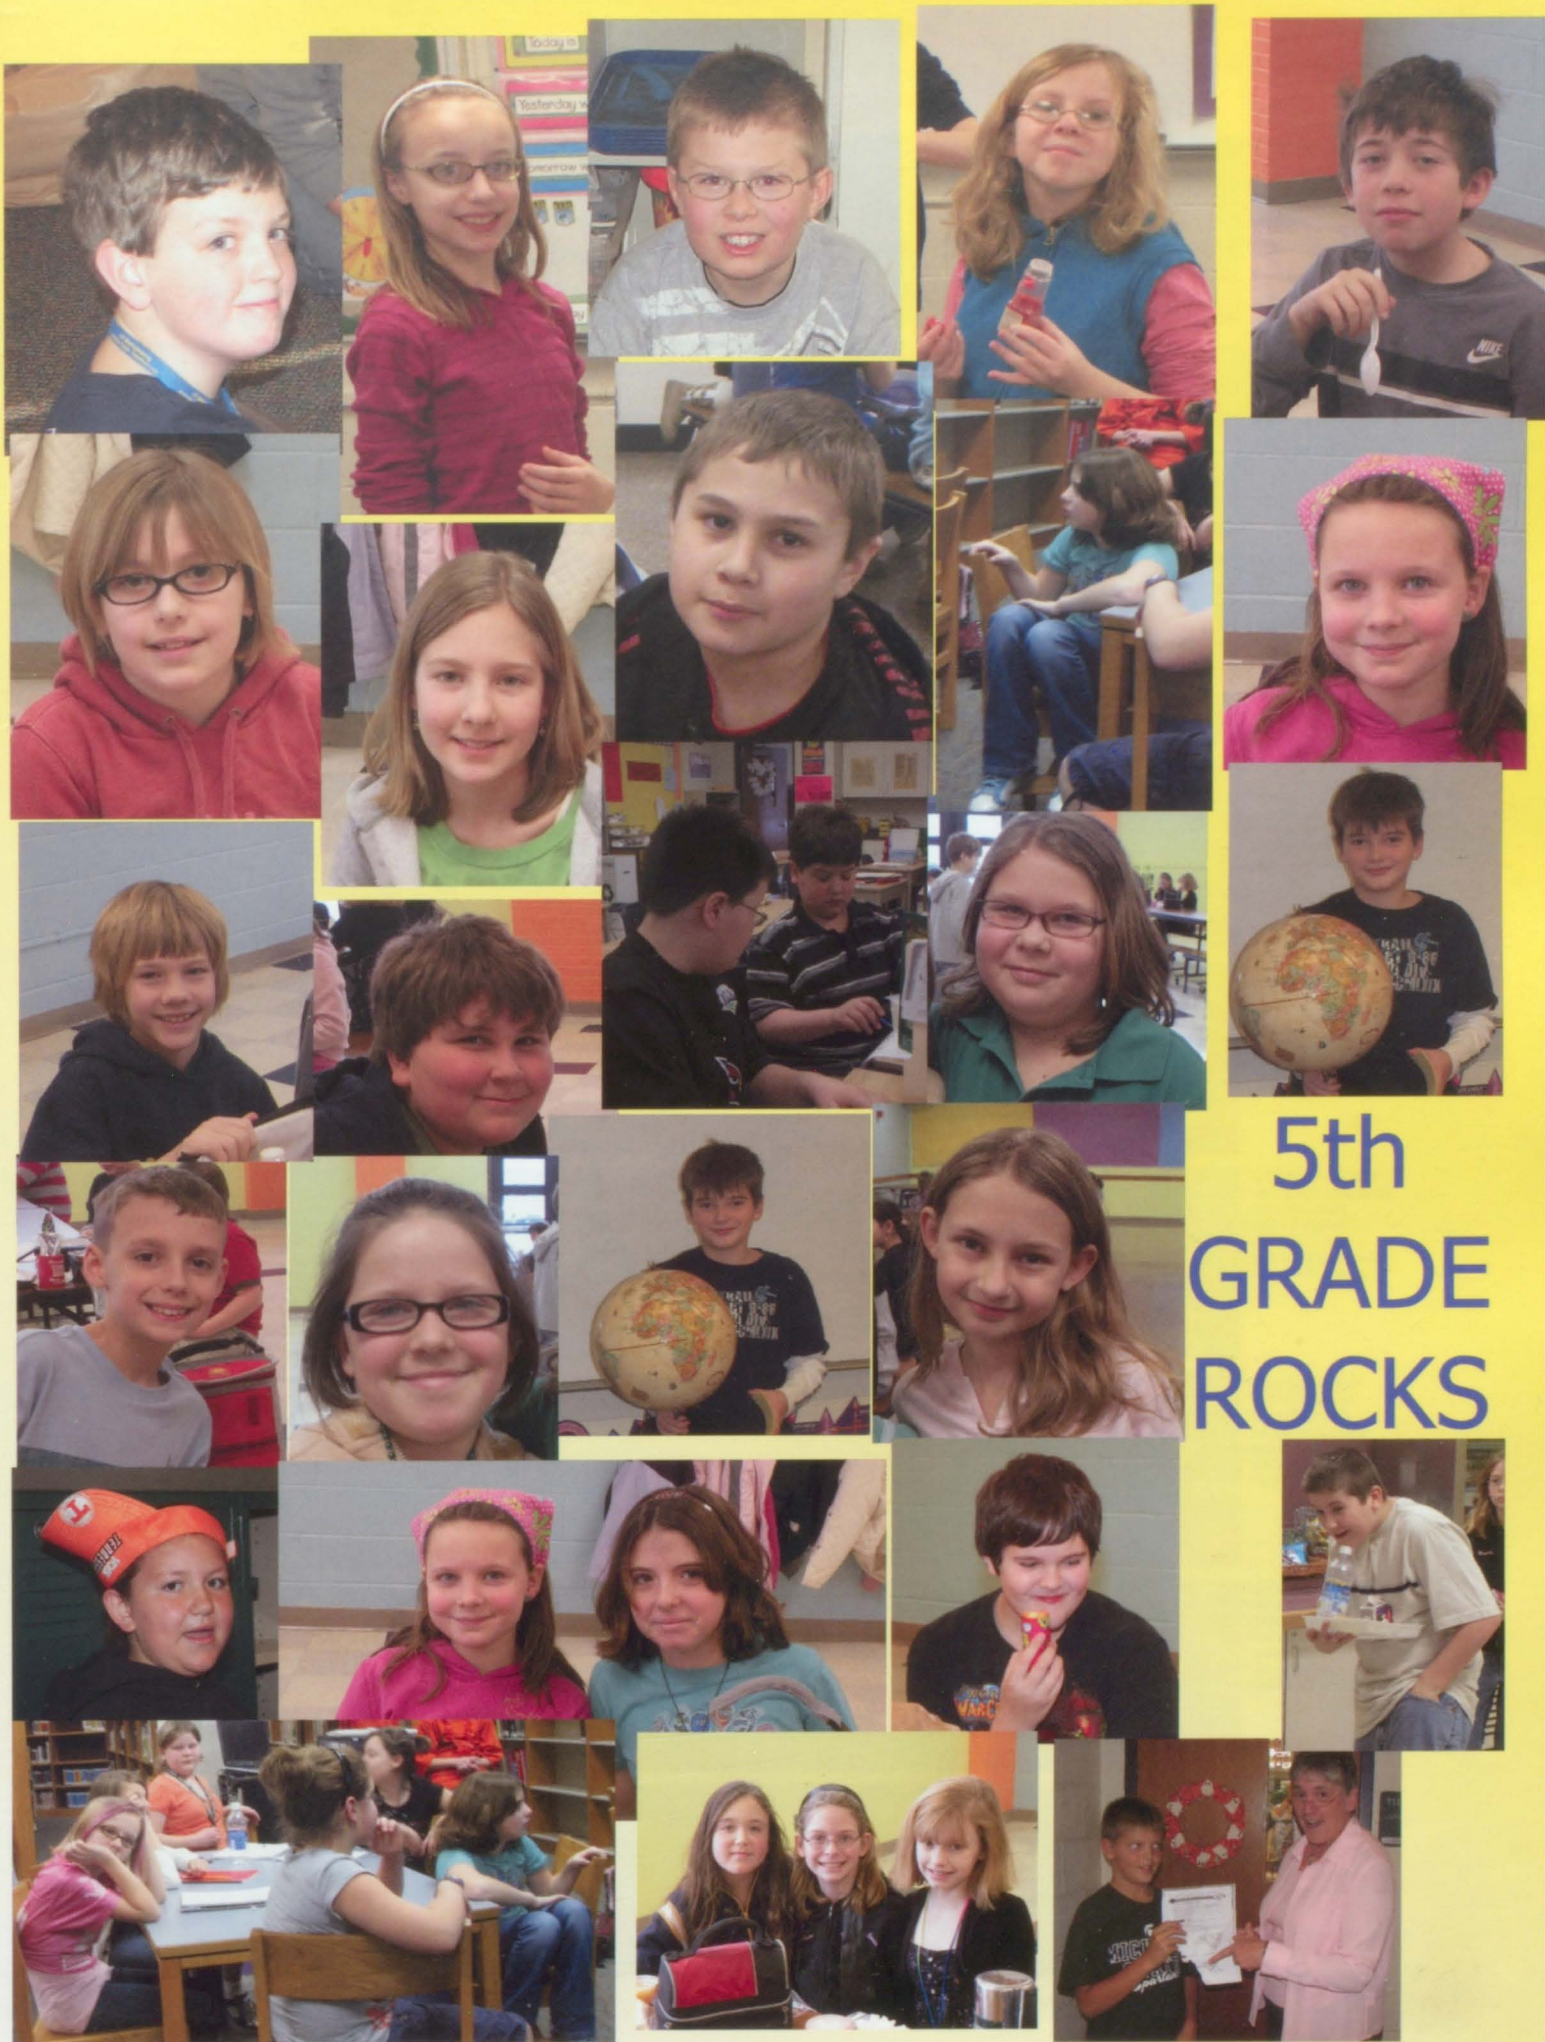

In this 6th grade classroom, the students were making paper chains. To make a paper chain, you have to have time, because they do take a lot of time to make. The 6th graders worked very hard on these paper chains and they turned out very pretty. To celebrate their good work, they got to show off the chains in the picture to the left. Good job!

This is an excerpt from a letter written by Mr. McArar when he was Principal at Tecumseh Middle School

This year was the closing of the Tecumseh landmark... originally the high school, the junior high, and currently the Middle School. The building that is now the Middle School needed to meet the needs of the students from 5th, 6th, 7th, 8th grade. These grades will converge in the newly renovated Tecumseh Middle School in 2002-2003. The whole school could attend the assemblies in the gym; imagine an entire class eating in the cafeteria at the time; building staying "cool" in fall and late spring; all staff and students are all under the same roof instead of two roofs.
