

Wadleigh Memorial Library

Theft or Damage to Personal Property or Information While Using Library Materials, Services or Equipment

The Wadleigh Memorial Library (WML) is not responsible for any damage to or theft of personal property, software or personal information incurred while using Library materials, equipment or services. Nor is the Library liable for damage which may occur to a Patron's equipment while using borrowed materials or equipment.

The Library Staff maintains and regularly updates anti-virus protection on all publicly accessible computers in the library. Nonetheless, Staff cannot guarantee that all computers are always free from computer viruses. The WML is not responsible for damage to personal computers or peripheral devices resulting from computer viruses transmitted through Library computers.

Wireless networks are not secure and use is at the Patron's own risk. Virus, security and privacy protection are the responsibility of the Patron and are not provided by the Library. Patrons using the free wireless service provided by the WML are advised not to transmit their credit card information, passwords, and any other sensitive personal information while using any wireless "hot spot" in the Library.
