

From the Director's Chair – Winter 2024

Let's get it Started!

In February 2023, the Library partnered with Library Strategies to engage with the community and conduct a strategic planning process. The process included a multi-pronged approach to assess the current state of the Library and gather community and stakeholder input. This approach involved the development of a board committee, a steering committee, a community survey, a staff survey, a series of interviews with local leaders and community members, a board session, and community focus groups.

Following the input and gathering phase, an initial plan was developed. This plan underwent numerous revisions with further input, resulting in a three-year plan approved by the Library Board this past August. We are pleased to present our new plan, which has high-level goals and addresses a wide range of strategies. (Visit www.whitelakelibrary.org)

We hope you find our new plan informative and exciting. It is designed to help us better serve the community and meet its evolving needs.

Thank you for your input and support!
