

An update from your Library Director,

May 4, 2020

Due to Governor Whitmer's extension of the state's "Stay Home, Stay Safe" order the White Lake Library building will be closed to the public thru at least May 30.

In the meantime, visit our NEW website for 24/7 access to a variety of books, movies, magazines, and other resources. Whitelakelibrary.org has a fresh new look and adapts to any screen size, which will be especially helpful for tablet and smartphone users.

We have purchased additional downloadable materials and Library suppliers have also generously opened up free access to thousands of books, movies, homework resources, and even virtual celebrity storytelling. Librarians have compiled links from whitelakelibrary.org to these **new online library resources** and to factual and reliable information about COVID-19.

Maybe the most helpful is the extensive compilation of **community resources** available to residents that are not able to work because of the stay at home order or who could just use a helping hand. Perhaps you're interested in donating to local organizations that are helping in the community. Check out the website for more information.

If you have trouble with online services, have questions regarding your library account or need a new library card, residents can use the online contact form on the website at whitelakelibrary.org or call the library at 248-698-4942. Librarians are working remotely from home on Monday–Saturday, 9:30 AM- 5:00 PM, and will do their best to answer questions as soon as possible.

When the governor eases the stay at home restrictions; you can access the wireless internet from the parking lot seven days a week. Save money, data, and time by using wireless supported by a fast fiber internet connection.

The library will be adapting our summer programs and events for online participation. For more information, visit whitelakelibrary.org, sign up for our e-newsletter and watch for our summer newsletter coming in late May to your US mailbox.

Thank you for your patience during this challenging time. The situation has continued to change, and we are doing our best to keep our staff and our community healthy. We look forward to seeing everyone back at the Library once we are in the clear.

Take care,

Denise Stefanick

Director | White Lake Township Library
